ZEPPELIN RAIDS TYNE DISTRICT

German Machine Drops Bombs
on English Villages.

FLIES ACROSS NORTH SEA

Airship Passes Near Larger Cities of
Northumberland and Newcastle. Both
Places Taking Precautions Against
Attack by Extinguishing the Elec-
tric Lights.

Newcastle, April 15.—A Zeppelin
raid was made in the Tyne district of
Northumberland county. It appears
that the Zeppelin reached Blyth from
across the North sea at about 8:10
p. m., passed over Blyth and Cramling-
ton and proceeded to the neighbor-
hood of Seatonburn.

Bombs were dropped on several of
the villages passed by the airship—
five at Choppington, three at Wall-
send, two at Seatonburn and one at
Bedlington.

The airship passed near North-
shields and Newcastle. While neither
city was visited both took precautions
against attack by extinguishing the
electric lights.

DISAPPOINTS THE GERMANS

Public Notices Submarines Fail to
Sink Troopships.

London, April 15.—The Rotterdam
correspondent of the Daily Telegraph
says he has obtained information
through German diplomatic sources
that the German imperial chancellor
Dr. von Bethmann-Hollweg, "was and
still is opposed to submarine warfare
on merchant shipping."

The correspondent states that the
scheme originated with Admiral von
Tirpitz, the minister of marine; that
the opposition to it was led by the
imperial chancellor and that for a
considerable time the proposal was
keenly debated.

"The chancellor's view," says the
dispatch, "was that the trivial suc-
cesses gained would not be com-
pensate with the detrimental effect in
neutral countries. Admiral von Tir-
pitz urged that something must be
done to show the German people that
Germany still possessed a sea power."

"After a prolonged debate the em-
peror supported Admiral von Tirpitz,
but the chancellor's view still has
strong support. The real disappoint-
ment of the German people with the
submarine campaign is due to the
fact that no troopships have been
sunk."

GERMAN PAPER IS BITTER

Favors Sending Strong Note to Amer-
ican Government.

Amsterdam, April 15.—The Ham-
burger Nachrichten, commenting on
the German memorandum to the state
department at Washington, recently
given out for publication by Count
von Bernstorff, German ambassador,
declares the United States allows
England to act as she pleases and
supplies her with all the war material
she requires, and continues:

"Many a one who has had to ob-
serve this procedure of the United
States has struck the table with his
fist. The anger created in Europe
is greater than the people over there
allow themselves to imagine.

"Our foreign office has now found
the right language against France,
against England and, without any
sort of consideration, against the
United States, too. With considera-
tion and forbearance, we get no fur-
ther forward.

"It is time that a strong word went
to Washington, in expression it will
be polite, but its meaning can only
be: 'Are you neutral or are you our
enemy?'"

DRYS BEATEN IN FLORIDA

Senate Rejects Statewide Prohibition
Amendment.

Tallahassee, Fla., April 15.—A res-
olution to submit a statewide probi-
tion amendment to the voters was de-
feated in the Florida senate.

"The house had passed such a res-
olution.

RUSSIAN LOSSES ARE
PLACED AT 500,000.

Berlin, April 15.—The fight-
ing in the Carpathian passes
since the beginning of the war
has caused a loss of at least
500,000 to the Russians, accord-
ing to a semi-official statement
given out here. The official
Russian figures, the statement
said, show that since the be-
ginning of the war the Rus-
sians have lost 71,608 officers.

SIR DOUGLAS HAIG.

is Warmly Praised
by General French.

CALLS HIM LEADER OF GREAT ABILITY

General French Warmly Praises
Sir Douglas Haig.

London, April 15.—Field Marshal
Sir John French, commander of the
British expeditionary forces on the
continent, in a lengthy report pub-
lished here, characterizes the battle of
Neuve Chapelle as the most important
in which the English troops have
been engaged.

General French at the same time
hints at failure to obey orders promp-
tly. "Considerable delay occurred af-
ter the capture of Neuve Chapelle and
the infantry was greatly disorgan-
ized," says his report. "I am of the
opinion that this delay would not
have occurred had the clearly ex-
pected order of the general officer com-
manding the First army been more
carefully observed.

"While the success attained was
due to the magnificent bearing and
indomitable courage displayed by the
troops of the Fourth and Indian corps
I consider that the able and skillful
dispositions which were made by the
general officer commanding the First
army contributed largely to the defeat
of the enemy and to the capture of
his position. The energy and vigor
with which General Sir Douglas Haig
handled his command show him to be
a leader of great ability and power."

BRITISH NOT AFTER KRAGS

Disclaim Responsibility for Attempts
to Purchase Old Rifles.

Washington, April 15.—The British
government has disclaimed respon-
sibility for any representations made
by persons claiming to represent it
in an effort to purchase the stock of old
Krag rifles in the United States arse-
nals.

Secretary Garrison recently reit-
erated his statement that these arms
would not be sold to any belligerent
directly or to any third party through
whose hands they might find their
way to a belligerent power.

KILLS SECOND CHOICE ACT

Minnesota House Passes Senate Re-
peal Measure.

St. Paul, April 15.—The bill repeal-
ing the second choice provision of the
primary law was passed by the house
of representatives by a vote of 89 to
1. Representative A. M. Peterson
casting the only dissenting vote. The
bill passed the senate with five nega-
tive votes.

The senate bill was substituted for
Representative G. B. Bjornson's house
bill. In urging passage of the bill
Representative Bjornson said that it
was drawn on the advice of the state
auditor and was generally approved
throughout the state.

SOUTH DAKOTAN SHOT DEAD

Young Farmer Is Victim of Accidental
Discharge of Gun.

Mitchell, S. D., April 15.—Clay Bar-
tee, tenant on a farm twelve miles
northeast of Mitchell, was killed in-
stantly in his barn by a charge from
a shotgun. A coroner's jury declared
the shooting accidental.

Bartee was about twenty-five years
old and leaves a widow and infant
child.

Naval Boats Trying to Locate Sunken Submarine in Honolulu Harbor

This is the first photograph to ar-
rive in the United States showing the
effort of the naval officers to raise the
F-4, the United States submarine,
which sank in Honolulu harbor.

They grappled for many days and
several times it was reported the ves-
sel had been found at a depth of 300
feet. Divers were sent down but they
could not go that depth. Of course,

long ago hope for the men of the
vessel was given up. But the naval
officers are very anxious, not only to
recover the bodies, but to learn the
cause of the sinking of the vessel.

DIVER FINDS F-4 DEPTH, 288 FEET

Honolulu, April 15.—Chief Gunner's
Mate Frank Crilly went 288 feet un-
der water here and walked along the
top of the submarine F-4, which dis-
appeared March 25. The depth is
said by naval officers to be a world's
diving record.

He found the F-4 lying in smooth
sandy bottom, with no coral growths
to impede raising operations. She
was tilted on her starboard side, her
bow pointing shoreward. Two part-
ed lines were found attached to the
craft.

Further observation probably will
be made before an attempt is made
to raise the F-4.

Crilly went down in an ordinary
diving suit and the recompression
chamber designed to reduce pressure
on the diver was not used.

Crilly was under the water two
hours. It took five minutes for him
to make the descent and he was on
the bottom twelve minutes. An hour
and forty-five minutes was required
to bring him to the surface, in order
to accustom him gradually to the
change in air pressure.

BATTLE RAGING AROUND WEDGE

(By United Press)

Paris, April 15.—The French war
department says that by sharp fighting
near Alsace the French have gained
a mile, and that the battle is still
raging around the German wedge at
St. Mihiel. In upper Alsace fierce
conflicts are reported near Laboisse-
lle the French heavy artillery complet-
ely wrecked several German trenches.
The most furious fighting is between
St. Mihiel and Pontamousson occur-
ing in LePetre woods, the French
maintaining all positions.

CLAIMS RUSSIANS BADLY BEATEN

(By United Press)

London, April 15.—Reports of the
progress of the battles at Carpathian
pass from Petrograd and Berlin sharp-
ly conflict. Berlin this afternoon
claims the Russians are badly beaten
and were checked at every attempt
in the region of Hungary. Petrograd
claims the Germans are blowing in
the railway tunnels through Ugh
Ushok pass in preparation for retreat.

EXPLAINS REASONS FAILED TO RESCUE

(By United Press)

Berlin, April 15.—The official re-
port of the Commander of the sub-
marine that sank the Falaba ex-
plains the reason he failed to attempt
the rescue of the victims of the Fal-
aba was on account of being under
orders not to take aboard the sub-
marine any persons unaccustomed to
being in a submerged craft. The
unseamanlike behavior of the crew
of the Falaba cost 112 lives, it be-
ing stated that the ship disobeyed
orders to stop.

ZEPPELIN RAID NEAR NEWCASTLE

(By United Press)

London, April 15.—Two men and
one woman slightly injured and one
building destroyed by fire was the
total damage of a 35 minute raid by
Zeppelins last night. Eleven towns
were attacked, but Newcastle, the ob-
jective point, escaped. At Blythe
Rev. Ogden was addressing a huge
warm audience and attempting to
enthuse his hearers for recruiting by
picturing a German invasion of En-
gland when a man rushed into the
church and shouted "There is a Zepp-
elin over us in the air." The min-
ister kept his composure, however,
and said that the air visitor had come
to help recruiting, and a rising vote
of thanks was given Count Zeppelin
for his assistance.

Newcastle, April 15.—The Zepp-
elin airship that raided England this
morning attempted to sink the tug
Jupiter while enroute to Germany.
The Zeppelin searchlights found the
Jupiter and dashed downward her
nose almost scraping the masthead
of the tug. An attempt was made
to drop a bag supposed to contain ex-
plosives, but the tug maneuvered, es-
caped the bag, steamed ahead and es-
caped with the airship in pursuit.

Newcastle, April 15.—The Zepp-
elin airship that raided England this
morning attempted to sink the tug
Jupiter while enroute to Germany.

The Zeppelin searchlights found the
Jupiter and dashed downward her
nose almost scraping the masthead
of the tug. An attempt was made
to drop a bag supposed to contain ex-
plosives, but the tug maneuvered, es-
caped the bag, steamed ahead and es-
caped with the airship in pursuit.

HIDDEN CAMERA GETS CUBA RIGHTS

(By United Press)

Havana, April 15.—Jack Johnson
will not receive a penny from the
movie rights in the island of Cuba.
A rival movie camera hidden in the
grand stand obtained excellent pic-
tures of the fight and has obtained
exclusive rights in Cuba. Johnson
attempted to obtain a restraining or-
der to prevent the exhibition of the
pictures in Cuba and failed.

LYMAN RESERVOIR BREAKS WITH ROAR

(By United Press)

Phoenix, Arizona, April 15.—With
a terrific roar the Lyman reservoir
broke this afternoon and sent a great
wall of water racing down upon St.
Johns, Arizona, twelve miles below.
Eight persons are known to have
been drowned and several are miss-
ing.

Four Dutch Steamers Seized By Germans

(By United Press)

Amsterdam, April 15.—Four Dutch
steamer trawlers were seized by Ger-
man torpedo boats and towed to an
unknown port, according to a dis-
patch this afternoon by the newspa-
per Ymuiden.

DOINGS OF THE LEGISLATURE

(By United Press)

St. Paul, April 15.—The bill to Ben-
d taxation in towns of the Mesaba
range at so much per capita, is on
the house calendar this afternoon,
but there will probably be no ac-
tion on the bill this week.

It will be necessary to re-pass the
Burrows-Minnette telephone bill on
account of the word "interstate" ap-
pearing where the word "intra-state"
was intended.

The Minnesota federation of com-
mercial clubs this afternoon voted to
disband and merge their identity
with the Minnesota commercial and
civic federation.

The bill recommending six hours
as a day's work was indefinitely
postponed.

Senator Sageng gave notice of de-
bate against the boxing bill.

The bill permitting reading the
Bible in the public school was in-
definitely postponed.

WAGES INCREASED TEN PER CENT

(By United Press)

Calumet, Mich., April 15.—The
Calumet and Hecla Mining company
this afternoon announced a 10 per
cent increase in wages to all em-
ployees in its mills and smelters and
at three of its eleven subsidiary com-
panies. This places the wages the
same as before the strike of 1913,
and is effective May 1st. Twelve
thousand men are affected.

Thirteen Die in Crossing Smash

Detroit, April 15.—Thirteen per-
sons, ten of them women, were killed
and twenty-seven others were injured
in a collision between a Detroit street
car and a string of freight cars push-
ed by a switch engine on the Detroit,
Toledo and Ironton railroad. Most of
the dead are foreigners whose homes
were beyond the western limits of the
city.

As the car approached the railroad
crossing it stopped and the conductor
ran ahead to see if the track was
clear. He signaled the motorman to
wait, but apparently the latter, who
is said to have been inexperienced,
misunderstood his meaning. He ap-
plied the power and the car ran rap-
idly down an incline and onto the rail-
road tracks.

A string of freight cars, being push-
ed by a switch engine, struck the
street car fairly in the middle, smash-
ing it almost to bits. The wreckage
was pushed along 100 feet, several of
the dead and injured dropping along
the street before the train was
brought to a standstill.

Steamer Torpedoed Eleven Lives Lost

(By United Press)

London, April 15.—The Steamer
Pinarig was torpedoed today in
the North Sea, eleven lives being lost.

MRS. T. R. ROOSEVELT.

Will Undergo Operation
in New York Hospital.

Copyright by Schloss.

MRS. ROOSEVELT IS ILL

She Reaches Gotham Hospital to Un-
dergo an Operation.

New York, April 15.—Mrs. Theo-
dore Roosevelt is a patient at Roose-
velt hospital in this city, where she
arrived with Colonel Roosevelt from
their home in Oyster Bay.

It was said that she would be op-
erated on. No information regarding
Mrs. Roosevelt was forthcoming at
the hospital, except the statement
that she was a patient there.

GERMAN CAPTAIN EMPHATIC

Declares Positively Kronprinz Wil-
helm Will Not Intern.

Newport News, Va., April 15.—After
he had been told by newspaper men
that it generally was reported that
he would tie up his ship here for the
remainder of the war Lieutenant Cap-
tain Thierfelder of the German con-
verted cruiser Kronprinz Wilhelm re-
iterated that he would not intern the
vessel voluntarily.

"I, myself, will not intern," exclaim-
ed the commander.

A similar stand, it was said, was
taken by Commander Thierichens of
the Prinz Eitel Friedrich until the
Berlin government ordered the ves-
sel's internment, deciding against a
dash through the cordon of allied war-
ships off the Virginia capes.

The cruiser will be moved into dry
dock Friday.

OLDEST BANKER IS DEAD

Norwalk Man Helped Organize First
National Institution.

Norwalk, O., April 15.—John Gar-
diner, ninety-nine years old, the old-
est active banker in the United States,
is dead. He was president of the
Norwalk National bank, in which he
became a clerk eighty-one years ago,
and until six months ago went daily
to his business office.

Gardiner helped Salmon P. Chase,
then secretary of the treasury, orga-
nize the first national bank in the coun-
try in 1862.

ROBERTS REFUSES TO QUIT

Convicted Mayor of Terre Haute,
Ind., Retains Office.

Indianapolis, April 15.—Arguments
on a petition for a writ of error filed
in the United States circuit court of
appeals at Chicago by Frank S. Roby,
attorney for a number of the men con-
victed here in the Terre Haute elec-
tion fraud case, will be made in Chi-
cago.

Mayor Donn M. Roberts, who was
sentenced to the federal prison, re-
fused to resign as mayor of Terre
Haute pending his efforts to obtain
\$50,000 appeal bond.

YELLOW FEVER ON VESSEL

Two Cases on Schooner Arriving at
Morgan City, La.

Morgan City, La., April 15.—Two
cases diagnosed by marine hospitals
as yellow fever were discovered on
the American schooner Persis A. Col-
well, which arrived at quarantine
from Demerara, British Guiana. One
member of the crew, the cook, died
March 25 and was buried at sea, Cap-
tain Follett said.

The vessel was fumigated and will
be kept at anchor off the quarantine
station several miles below here.

SHIPMENT RESTS WITH GERMANY

Its Consent Necessary to Obtain
Two Cargoes of Dyes.

GREAT BRITAIN IS WILLING

Officials of the State Department at
Washington Will Take the Matter
Up With the German Government
and Are Hopeful of a Successful
Outcome.

Washington, April 15.—Officials at
the state department are prepared to
take up with the German government
the last step necessary to supply
American textile mills with two car-
goes of German dyestuffs bought and
paid for with American cotton before
March 1.

The way was cleared by the an-
nouncement that the British govern-
ment had agreed to permit these car-
goes to come through from Rotter-
dam, under certain conditions, the re-
cent order in council aimed at all
commerce to or from Germany being
set aside to that extent.

As the position previously taken by
the German government has been that
it would permit shipment of dyestuffs
in exchange for cotton or copper some
officials believed there would be lit-
tle difficulty in getting these two car-
goes out of Germany to Rotterdam.

At any rate only the consent of Ger-
many is necessary to get this much
needed supply for American mills and
state department officials will co-op-
erate with the millers' agent in efforts
to complete the transaction.

A preliminary study of the mes-
sages indicated that the cargoes were
already at Rotterdam.

A statement of the commerce de-
partment shows, however, that a final
negotiation is necessary.

The action of the British govern-
ment in requiring that an official of
the United States government be
named consignee of the dyestuffs fol-
lows out its known intention of deal-
ing only with the American millers
and without reference to the import-
ers who usually receive and distribute
the German cargoes.

Turks Lose 300 Prisoners.

London, April 15.—The Turks, ac-
cording to an official report issued by
the India office, who had collected a
force of 11,000 regulars with twenty-
eight guns, and some 12,000 Kurds
and Arabs, attacked the British posi-
tions at Kurna, Ahwaz and Shalab, in
Mesopotamia, on March 12. They
were driven off, however, leaving 300
prisoners and two guns in the hands
of the British.

STRIKES IN ITALIAN CITIES

Protest Against Police Charging Mob
Sunday.

Milan, April 15.—The workmen in
all the manufacturing and the em-
ployees of the street railway, cab and
automobile services, agreed to join a
twenty-four-hour general strike. The
strike was called by the extremists
in the labor party as a protest against
the killing of a man by the police
while they were charging a crowd
Sunday which had gathered for a
mass meeting at which Italy's attitude
in the war was to be discussed.

VILLA GAINS UPPER HAND

Has Best of Present Battle With Gen-
eral Obregon.

Washington, April 15.—General
Francisco Villa, chief of the north,
appears to have gained the upper
hand in the first day of the battle
with the forces of General Obregon,
commander of the Carranza forces,
near Celaya and vicinity.

Consular advices received by the
state department declare that the first
fruits of victory are with the army of
the northern conference. It became
known that 45,000 men are engaged in
the battle.

Victory for the Villa troops would
mean that communication could be
resumed between Mexico City and the
American border, while success by the
troops of Obregon would divide the
Villa-Zapata forces and destroy their
communications between the northern
and southern sections of the country.

POLICE CHIEF ASKS

GOCART SPEED LIMIT.

Elizabeth, N. J., April 15.—

Police Commissioner William

de Hart asked the enactment

of a speed limit for go-carts.

The commissioner seeks to

compel mothers to move them

with more celerity.

tee, tenant on a farm twelve miles
northeast of Mitchell, was killed in-
stantly in his barn by a charge from
a shotgun. A coroner's jury declared
the shooting accidental.
Bartee was about twenty-five years
old and leaves a widow and infant
child.

Naval Boats Trying to Locate Sunken Submarine in Honolulu Harbor

This is the first photograph to ar-
rive in the United States showing the
effort of the naval officers to raise the
F-4, the United States submarine,
which sank in Honolulu harbor.

They grappled for many days and
several times it was reported the ves-
sel had been found at a depth of 300
feet. Divers were sent down but they
could not go that depth. Of course,

long ago hope for the men of the
vessel was given up. But the naval
officers are very anxious, not only to
recover the bodies, but to learn the
cause of the sinking of the vessel.

DIVER FINDS F-4 DEPTH, 288 FEET

Honolulu, April 15.—Chief Gunner's
Mate Frank Crilly went 288 feet un-
der water here and walked along the
top of the submarine F-4, which dis-
appeared March 25. The depth is
said by naval officers to be a world's
diving record.

He found the F-4 lying in smooth
sandy bottom, with no coral growths
to impede raising operations. She
was tilted on her starboard side, her
bow pointing shoreward. Two part-
ed lines were found attached to the
craft.

Further observation probably will
be made before an attempt is made
to raise the F-4.
Crilly went down in an ordinary
diving suit and the recompression
chamber designed to reduce pressure
on the diver was not used.

Crilly was under the water two
hours. It took five minutes for him
to make the descent and he was on
the bottom twelve minutes. An hour
and forty-five minutes was required
to bring him to the surface, in order
to accustom him gradually to the
change in air pressure.

BATTLE RAGING AROUND WEDGE

(By United Press)

Paris, April 15.—The French war
department says that by sharp fighting
near Alsace the French have gained
a mile, and that the battle is still
raging around the German wedge at
St. Mihiel. In upper Alsace fierce
conflicts are reported near Laboisselle
the French heavy artillery completely
wrecked several German trenches.
The most furious fighting is between
St. Mihiel and Pont-aux-Francais oc-
curring in LePetre woods, the French
maintaining all positions.

CLAIMS RUSSIANS BADLY BEATEN

(By United Press)

London, April 15.—Reports of the
progress of the battles at Carpathian
pass from Petrograd and Berlin sharp-
ly conflict. Berlin this afternoon
claims the Russians are badly beaten
and were checked at every attempt
in the region of Hungary. Petrograd
claims the Germans are blowing up
the railway tunnels through Ugh
Ushok pass in preparation for retreat.

EXPLAINS REASONS FAILED TO RESCUE

(By United Press)

Berlin, April 15.—The official re-
port of the Commander of the sub-
marine that sank the Falaba ex-
plains the reason he failed to attempt
the rescue of the victims of the Fal-
aba was on account of being under
orders not to take aboard the sub-
marine any persons unaccustomed to
being in a submerged craft. The
unseamanlike behavior of the crew
of the Falaba cost 112 lives, it be-
ing stated that the ship disobeyed
orders to stop.

ZEPPELIN RAID NEAR NEWCASTLE

(By United Press)

London, April 15.—Two men and
one woman slightly injured and one
building destroyed by fire was the
total damage of a 35 minute raid by
Zeppelins last night. Eleven towns
were attacked, but Newcastle, the ob-
jective point, escaped. At Blythe
Rev. Ogden was addressing a huge
warm audience and attempting to
enthusias his hearers for recruiting by
picturing a German invasion of Eng-
land when a man rushed into the
church and shouted "There is a Zepp-
elin over us in the air." The min-
ister kept his composure, however,
and said that the air visitor had come
to help recruiting, and a rising vote
of thanks was given Count Zeppelin
for his assistance.

Newcastle, April 15.—The Zepp-
lin airship that raided England this
morning attempted to sink the tug
Jupiter while enroute to Germany.
The Zeppelin searchlights found the
Jupiter and dashed downward her
nose almost scraping the masthead
of the tug. An attempt was made
to drop a bag supposed to contain ex-
plosives, but the tug maneuvered, es-
caped the bag, steamed ahead and es-
caped with the airship in pursuit.

HIDDEN CAMERA GETS CUBA RIGHTS

(By United Press)

Havana, April 15.—Jack Johnson
will not receive a penny from the
movie rights in the island of Cuba.
A rival movie camera hidden in the
grand stand obtained excellent pic-
tures of the fight and has obtained
exclusive rights in Cuba. Johnson
attempted to obtain a restraining or-
der to prevent the exhibition of the
pictures in Cuba and failed.

LYMAN RESERVOIR BREAKS WITH ROAR

(By United Press)

Phoenix, Arizona, April 15.—With
a terrific roar the Lyman reservoir
broke this afternoon and sent a great
wall of water racing down upon St.
Johns, Arizona, twelve miles below.
Eight persons are known to have
been drowned and several are miss-
ing.

Four Dutch Steamers Seized By Germans

(By United Press)

Amsterdam, April 15.—Four Dutch
steamer trawlers were seized by Ger-
man torpedo boats and towed to an
unknown port, according to a dis-
patch this afternoon by the newspa-
per Ymuiden.

DOINGS OF THE LEGISLATURE

(By United Press)

St. Paul, April 15.—The bill to lim-
it taxation in towns of the Mesaba
range at so much per capita, is on
the house calendar this afternoon,
but there will probably be no ac-
tion on the bill this week.

It will be necessary to repass the
Burrows-Minnette telephone bill on
account of the word "interstate" ap-
pearing where the word "intra-state"
was intended.

The Minnesota federation of com-
mercial clubs this afternoon voted to
disband and merge their identity
with the Minnesota commercial and
civic federation.

The bill recommending six hours
as a day's work was indefinitely
postponed.

Senator Sageng gave notice of de-
bate against the boxing bill.

The bill permitting reading the
Bible in the public school was in-
definitely postponed.

WAGES INCREASED TEN PER CENT

(By United Press)

Calumet, Mich., April 15.—The
Calumet and Hecla Mining company
this afternoon announced a 10 per
cent increase in wages to all em-
ployes in its mills and smelters and
at three of its eleven subsidiary com-
panies. This places the wages the
same as before the strike of 1913,
and is effective May 1st. Twelve
thousand men are affected.

Thirteen Die in Crossing Smash

Detroit, April 15.—Thirteen per-
sons, ten of them women, were killed
and twenty-seven others were injured
in a collision between a Detroit street
car and a string of freight cars push-
ed by a switch engine on the Detroit,
Toledo and Ironport railroad. Most
of the dead are foreigners whose homes
were beyond the western limits of the
city.

As the car approached the railroad
crossing it stopped and the conductor
ran ahead to see if the track was
clear. He signaled the motorman to
wait, but apparently the latter, who
is said to have been inexperienced,
misunderstood his meaning. He ap-
plied the power and the car ran rap-
idly down an incline and onto the rail-
road tracks.

A string of freight cars, being push-
ed by a switch engine, struck the
street car fairly in the middle, smash-
ing it almost to bits. The wreckage
was pushed along 100 feet, several
of the dead and injured dropping along
the street before the train was
brought to a standstill.

Steamer Torpedoed Eleven Lives Lost

(By United Press)

London, April 15.—The Steamer
Pamir was torpedoed today in the
North Sea, eleven lives being lost.

MRS. T. R. ROOSEVELT.

Will Undergo Operation
in New York Hospital.

Copyright by Schloss.

MRS. ROOSEVELT IS ILL

She Reaches Gotham Hospital to Un-
dergo an Operation.

New York, April 15.—Mrs. Theod-
ore Roosevelt is a patient at Roose-
velt hospital in this city, where she
arrived with Colonel Roosevelt from
their home in Oyster Bay.

It was said that she would be op-
erated on. No information regarding
Mrs. Roosevelt was forthcoming at
the hospital, except the statement
that she was a patient there.

GERMAN CAPTAIN EMPHATIC

Declares Positively Kronprinz Wil-
helm Will Not Intern.

Newport News, Va., April 15.—After
he had been told by newspaper men
that it generally was reported that
he would tie up his ship here for the
remainder of the war Lieutenant Cap-
tain Thierfelder of the German con-
verted cruiser Kronprinz Wilhelm re-
iterated that he would not intern the
vessel voluntarily.

"I, myself, will not intern," exclaim-
ed the commander.

A similar stand, it was said, was
taken by Commander Thierichens of
the Prinz Eitel Friedrich until the
Berlin government ordered the ves-
sel's internment, deciding against a
dash through the cordon of allied war-
ships off the Virginia capes.

The cruiser will be moved into dry
dock Friday.

OLDEST BANKER IS DEAD

Norwalk Man Helped Organize First
National Institution.

Norwalk, O., April 15.—John Gar-
diner, ninety-nine years old, the old-
est active banker in the United States,
is dead. He was president of the
Norwalk National bank, in which he
became a clerk eighty-one years ago,
and until six months ago went daily
to his business office.

Gardiner helped Salmon P. Chase,
then secretary of the treasury, orga-
nize the first national bank in the coun-
try in 1862.

ROBERTS REFUSES TO QUIT

Convicted Mayor of Terre Haute,
Ind., Retains Office.

Indianapolis, April 15.—Arguments
on a petition for a writ of error filed
in the United States circuit court of
appeals at Chicago by Frank S. Robt.,
attorney for a number of the men con-
victed here in the Terre Haute elec-
tion fraud case, will be made in Chi-
cago.

Mayor Donn M. Roberts, who was
sentenced to the federal prison, re-
fused to resign as mayor of Terre
Haute pending his efforts to obtain
\$50,000 appeal bond.

YELLOW FEVER ON VESSEL

Two Cases on Schooner Arriving at
Morgan City, La.

Morgan City, La., April 15.—Two
cases diagnosed by marine hospitals
as yellow fever were discovered on
the American schooner Persis A. Col-
well, which arrived at quarantine
from Demerara, British Guiana. One
member of the crew, the cook, died
March 25 and was buried at sea. Cap-
tain Follett said.

The vessel was fumigated and will
be kept at anchor off the quaran-
tine station several miles below here.

SHIPMENT RESTS WITH GERMANY

Its Consent Necessary to Obtain
Two Cargoes of Dyes.

GREAT BRITAIN IS WILLING

Officials of the State Department at
Washington Will Take the Matter
Up With the German Government
and Are Hopeful of a Successful
Outcome.

Washington, April 15.—Officials of
the state department are preparing to
take up with the German government
the last step necessary to supply
American textile mills with two car-
goes of German dyestuffs bought and
paid for with American cotton before
March 1.

The way was cleared by the an-
nouncement that the British govern-
ment had agreed to permit these car-
goes to come through from Rotter-
dam, under certain conditions, the re-
cent order in council aimed at all
commerce to or from Germany being
set aside to that extent.

As the position previously taken by
the German government has been that
it would permit shipment of dyestuffs
in exchange for cotton or copper some
officials believed there would be lit-
tle difficulty in getting these two car-
goes out of Germany to Rotterdam.

At any rate only the consent of Ger-
many is necessary to get this much
needed supply for American mills and
state department officials will co-oper-
ate with the millers' agent in efforts
to complete the transaction.

A preliminary study of the mes-
sages indicated that the cargoes were
already at Rotterdam.

A statement of the commerce de-
partment shows, however, that a final
negotiation is necessary.

The action of the British govern-
ment in requiring that an official of
the United States government be
named consignee of the dyestuffs fol-
lows out its known intention of deal-
ing only with the American millers
and without reference to the import-
ers who usually receive and distribute
the German cargoes.

Turks Lose 300 Prisoners.

London, April 15.—The Tarkä, ac-
cording to an official report issued by
the India office, who had collected a
force of 11,000 regulars with twenty-
eight guns, and some 12,000 Kurds
and Arabs, attacked the British posi-
tions at Kurna, Ahwaz and Shaliba, in
Mesopotamia, on March 12. They
were driven off, however, leaving 300
prisoners and two guns in the hands
of the British.

STRIKES IN ITALIAN CITIES

Protest Against Police Charging Mob
Sunday.

Milan, April 15.—The workmen in
all the manufacturing and the em-
ployes of the street railway, cab and
automobile services, agreed to join a
twenty-four-hour general strike. The
strike was called by the extremists
in the labor party as a protest against
the killing of a man by the police
while they were charging a crowd
Sunday which had gathered for a
mass meeting at which Italy's attitude
in the war was to be discussed.

VILLA GAINS UPPER HAND

Has Best of Present Battle With Gen-
eral Obregon.

Washington, April 15.—General
Francisco Villa, chief of the north,
appears to have gained the upper
hand in the first day of the battle
with the forces of General Obregon,
commander of the Carranza forces,
near Celaya and vicinity.

Consular advices received by the
state department declare that the first
fruits of victory are with the army of
the northern conference. It became
known that 45,000 men are engaged in
the battle.

Victory for the Villa troops would
mean that communication could be
resumed between Mexico City and the
American border, while success by the
troops of Obregon would divide the
Villa-Zapata forces and destroy their
communications between the northern
and southern sections of the country.

POLICE CHIEF ASKS
GOCART SPEED LIMIT.

Elizabeth, N. J., April 15.—
Police Commissioner William
de Hart asked the enactment
of a speed limit for go-carts.
The commissioner seeks to
compel mothers to move them
with more celerity.

Whooping Cough

Well—everyone knows the effect of
pin forests on coughs. Dr. Bell's
Pine-Tar-Honey is a remedy which
brings quick relief for whooping
cough, loosens the mucous, soothes
the lining of the throat and lungs,
and makes the coughing spells less
severe. A family with growing chil-
dren should not be without it. Keep
it handy for all coughs and colds, 25c
at your druggist.—Adv. tts

James I. and Soap.

James I. was actively interested in
the soap industry. In return for a pay-
ment of \$6 per ton on all soap produced
James granted the Company of Soap-
makers of Westminster the monopoly
for the making of soap in England.

The importation of soap was forbidden,
and officers were appointed to deal
with illicit soap boiling, its manufac-
ture, even in private houses for do-
mestic purposes, being punishable by
heavy penalties. Moreover, a procla-
mation was issued announcing that
"the soap made by the company is
good, sweet and serviceable for our
people." The annual revenue drawn
by the king from this source amounted
to about \$30,000.—London Express.

WOMAN SUFFRAGE

It's War Time Aspect

London, April 15.—The women of
England are doing their duty. They
are taking care of the wounded, or
if they cannot assist in work of that
kind they are adding their savings to
promote the good work. They are
knitting and sewing for the soldiers
at the front. The suffragists have
given so little trouble to the govern-
ment that it will undoubtedly soften
the hearts of those in parliament,
since the "militants" have turned all
their energies to aid the fighting men
of England, and so suffrage may soon
come after this terrible war is over.

Thousands of women in America
have overcome their sufferings, and
have been cured of womanly ills by
Dr. Pierce's Favorite Prescription.
This medicine, though started near-
ly half a century ago, sells more
widely today than any other woman-
ly tonic. It can now be had in table-
t form as well as liquid, and every
woman who suffers from backache,
headache, nervousness, pain at times,
should take this "Prescription" of Dr.
Pierce.

Many a woman is nervous and ir-
ritable, feels dragged down and worn
out for no reason that she can think
of. In ninety-nine per cent of these
cases it is the womanly organism
which requires attention; the weak
back, dizzy spells and black circles
about the eyes, are only symptoms.
Go to the source of trouble and cor-
rect the irregularities, the drains on
the womanly system and the other
symptoms disappear.

Doctor Pierce's Pellets are unequal-
led as a Liver Pill. Smallest, easiest
to take. One tiny, sugar-coated Pel-
let a Dose. Cures Sick Headache,
Bilious Headache, Dizziness, Con-
stipation, Indigestion, Bilious Attacks,
and all derangements of the liver,
stomach and bowels. 25 cents vial.
by druggists.—Adv.

TIME NOT RIPE FOR INTERVENTION

**But Sooner or Later Army Must
Be Sent to Mexico.**

FOREIGN TROUBLES DELAY IT

Those Who Study Conditions in Bor-
der Republic Realize That Matters
Are Rapidly Going From Bad to
Worse.—Administration Disappointed
as Mission of Colonel House Fails.

By ARTHUR W. DUNN.

Washington, April 13.—[Special.]—
Reports from Mexico indicate more
and more the necessity for intervening
in the cause of humanity just as we
intervened in Cuba. It seems that
some time this intervention must take
place.

It is believed by those who have been
studying the conditions that the situa-
tion will grow worse instead of better.
As the various factions become more
desperate they will commit greater
outrages not only upon foreigners, but
upon their own people.

Even if the leaders were disposed to
restrain their men they will be unable
to do so when they want food and sup-
plies. It seems inevitable that in time
the number of factions will increase
and there will be numerous banditti
roving about without any other motive
than murder and pillage. In the name
of humanity intervention will have to
come when such a condition is reached.

Not a Propitious Time.

Even the most ardent advocate of in-
tervention must see that there are rea-
sons why intervention should not take
place just at this time. As long as we
are constantly having difficulties with
the European belligerents and may at
any time be called upon to defend our
own neutrality in that war and with
Japan opposite us in the Pacific it is
no time to send all the available army
into Mexico and have it tied up there.
Mexico can wait while the more im-
portant conditions are watched by our
government.

The Mission of Colonel House.

It has been a real disappointment to
the administration that Colonel E. M.
House has not been able to accomplish
more during his mission in Europe.
The president has great confidence in
Colonel House, in fact he is the one
man who seems to have closer rela-
tions with the president than all other
men who visit the White House. It
seems, however, that the warring na-
tions of Europe were not ready to lis-
ten to any peace proposals House had
to make.

Something like a year ago the Texas
colonel was on a mission in Europe.
That time he was looking about Paris
to see if William F. McCombs could
maintain a position as ambassador to
France on the salary and the income
he possessed. As McCombs did not
take the place, it is presumed that
House made an adverse report.

Gardner's Guests.

Congressman Gardner has gone into
the fight for increased military prepara-
tion in earnest. Gardner has always
been a witty member of congress, but
not spectacular, consequently when he
gives a dinner to the army reserve it
means that he has entered into this
fight with all the earnestness of his
nature. The army reserve is a joke,
consisting of sixteen men, and Gardner
has made the play because he wants
to show the kind of legislation we have
had which in four or five years builds
up a reserve of sixteen men.

Among the Forgotten.

Only a few years ago there was much
talk about the Touche-Nelson bill, a
measure designed to give country print-
ers the opportunity of printing corner
cards on stamped envelopes instead of
turning the work over to one big con-
cern by a postoffice contract. That bill
lived for a time, died and has been
forgotten. At one time congress was
flooded with requests for its enact-
ment, but it seems to have dropped en-
tirely out of sight.

Brought Joy to Washington.

Washington was particularly pleased
to see Jess Willard down Jack John-
son. Heretofore every time the colored
champion defeated some other pugilist
the colored people of the capital—and
they are more demonstrative here than
elsewhere—would become exalted to an
almost unbearable state. Talk about
race prejudice and race pride! Why,
there has never been anything which
has made the colored population re-
joice like the triumphs of the black
man in the prize ring. The negroes
of Washington are often arrogant, be-
cause here more than elsewhere they
are accorded full citizenship rights, and
they have always been particularly ob-
noxious when Johnson was exploiting
himself.

Bird Preserves.

Before it was too late the country
has become aroused to the necessity
of preserving birds. The government
has set apart seventy-four bird reserves
in different parts of the country, but
they are mostly in the west where
there was public domain. Men who
have given this subject consideration
say that it has become almost a nec-
essity for public spirited citizens of the
United States to make an effort to set
apart tracts of land in the eastern
states as bird preserves in order to
prevent many species from becoming
extinct.

Whooping Cough
Well—everyone knows the effect of
pin forests on coughs. Dr. Bell's
Pine-Tar-Honey is a remedy which
brings quick relief for whooping
cough, loosens the mucous, soothes
the lining of the throat and lungs,
and makes the coughing spells less
severe. A family with growing chil-
dren should not be without it. Keep
it handy for all coughs and colds. 25c

COAL

Does your coal come from Our
coal is all carefully inspected be-
fore we accept it—is yours Our
coal has no slag or dirt, or in
fact any foreign material to add
to the weight or detract from the
heating quality. We take good
care of our trade at all times.

DEBT

The Careful man does not carry a load of debt. He is a careful man and instead of wasting his money he puts it in the bank where it is safe and where he can get it.

DEBT IS A HARD MASTER.
THE WAY NOT TO HAVE A DEBT YOU CANNOT PAY IS NOT TO MAKE IT.
THE "CAREFUL" MAN NEVER MAKES A DEBT, UNLESS BY DOING SO HE COULD SAFELY SEE A BIGGER "INCOME" THAN "OUT-GO."
THIS IS HOW HE GROWS A FORTUNE.
WHY NOT PUT YOUR MONEY IN OUR BANK AND ALSO GROW A FORTUNE.

BANK WITH US.
WE PAY INTEREST ON TIME AND SAVINGS DEPOSITS.

James I. and Soap.
James I. was actively interested in the soap industry. In return for a payment of 10 per cent on all soap produced James granted the Company of Soap-makers of Westminster the monopoly for the making of soap in England. The importation of soap was forbidden, and officers were appointed to deal with illicit soap boiling, its manufacture, even in private houses for domestic purposes, being punishable by heavy penalties. Moreover, a proclamation was issued announcing that "the soap made by the company is good, sweet and serviceable for our people." The annual revenue drawn by the king from this source amounted to about £30,000.—London Express.

WOMAN SUFFRAGE
It's War Time Aspect

London, April 15.—The women of England are doing their duty. They are taking care of the wounded, or if they cannot assist in work of that kind they are adding their savings to promote the good work. They are knitting and sewing for the soldiers at the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in parliament, since the "militants" have turned all their energies to aid the fighting men of England, and so suffrage may soon come after this terrible war is over.

Thousands of women in America have overcome their sufferings, and have been cured of womanly ills by Dr. Pierce's Favorite Prescription. This medicine, though started nearly half a century ago, sells more widely today than any other womanly tonic. It can now be had in tablet form as well as liquid, and every woman who suffers from headache, nervousness, pain at times, should take this "Prescription" of Dr. Pierce.
Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear.
Doctor Pierce's Pellets are unequalled as a Liver Pill. Smallest, easiest to take. One tiny, sugar-coated Pellet a Dose. Cures Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels. 25 cents vial, by druggists.—Adv.

TIME NOT RIPE FOR INTERVENTION

But Sooner or Later Army Must Be Sent to Mexico.

FOREIGN TROUBLES DELAY IT

Those Who Study Conditions in Border Republic Realize That Matters Are Rapidly Going From Bad to Worse—Administration Disappointed as Mission of Colonel House Fails.

By ARTHUR W. DUNN.

Washington, April 13.—[Special.]—Reports from Mexico indicate more and more the necessity for intervening in the cause of humanity just as we intervened in Cuba. It seems that some time this intervention must take place.

It is believed by those who have been studying the conditions that the situation will grow worse instead of better. As the various factions become more desperate they will commit greater outrages not only upon foreigners, but upon their own people.

Even if the leaders were disposed to restrain their men they will be unable to do so when they want food and supplies. It seems inevitable that in time the number of factions will increase and there will be numerous banditti roving about without any other motive than murder and pillage. In the name of humanity intervention will have to come when such a condition is reached.

Not a Propitious Time.

Even the most ardent advocate of intervention must see that there are reasons why intervention should not take place just at this time. As long as we are constantly having difficulties with the European belligerents and may at any time be called upon to defend our own neutrality in that war and with Japan opposite us in the Pacific it is no time to send all the available army into Mexico and have it tied up there. Mexico can wait while the more important conditions are watched by our government.

The Mission of Colonel House. It has been a real disappointment to the administration that Colonel E. M. House has not been able to accomplish more during his mission in Europe. The president has great confidence in Colonel House, in fact he is the one man who seems to have closer relations with the president than all others who visit the White House. It seems, however, that the warring nations of Europe were not ready to listen to any peace proposals House had to make.

Something like a year ago the Texas colonel was on a mission in Europe. That time he was looking about Paris to see if William F. McCombs could maintain a position as ambassador to France on the salary and the income he possessed. As McCombs did not take the place, it is presumed that House made an adverse report.

Gardner's Guests. Congressman Gardner has gone into the fight for increased military preparation in earnest. Gardner has always been a witty member of congress, but not spectacular, consequently when he gives a dinner to the army reserve it means that he has entered into this fight with all the earnestness of his nature. The army reserve is a joke, consisting of sixteen men, and Gardner has made the place because he wants to show the kind of legislation we have had which in four or five years builds up a reserve of sixteen men.

Among the Forgotten. Only a few years ago there was much talk about the Touville-Nelson bill, a measure designed to give country printers the opportunity of printing corner cards on stamped envelopes instead of turning the work over to one big concern by a postoffice contract. That bill lived for a time, died and has been forgotten. At one time congress was flooded with requests for its enactment, but it seems to have dropped entirely out of sight.

Brought Joy to Washington. Washington was particularly pleased to see Jess Willard down Jack Johnson. Heretofore every time the colored champion defeated some other pugilist the colored people of the capital—and they are more demonstrative here than elsewhere—would become exalted to an almost unbearable state. Talk about race prejudice and race pride! Why, there has never been anything which has made the colored population rejoice like the triumphs of the black man in the prize ring. The negroes of Washington are often arrogant, because here more than elsewhere they are accorded full citizenship rights, and they have always been particularly obnoxious when Johnson was exploiting himself.

Bird Preserves. Before it was too late the country has become aroused to the necessity of preserving birds. The government has set apart seventy-four bird reserves in different parts of the country, but they are mostly in the west where there was public domain. Men who have given this subject consideration say that it has become almost a necessity for public spirited citizens of the United States to make an effort to set apart tracts of land in the eastern states as bird preserves in order to prevent many species from becoming extinct.

WOMAN'S REALM

In Joint Recital

Otto Meyer, violinist and Mme. Marie Ten Broeck, pianist, will be heard in joint recital at Elks hall Friday evening, April 16, under the auspices of the Brainerd Musical club.

The following press notices from German papers are given. The Berliner Neueste Nachrichten says of Mr. Meyer: "On Monday the violinist, Otto Meyer, appeared in concert. He is a ripening artist with a masterly bow and certain intonation."

The Deutsche Reichsanzeiger, Berlin, says: "He is master of his instrument and his tone is pure and noble."

The Continental Herald, Berlin, says: "Mr. Meyer shows that his work has been built carefully and well. He brings out an absolutely pure and sweet tone, round and full and in his Tenaglia aria the beautiful legato and 'singing' tone stamped him as an artist with a future. The Paganini 'Hexentanz,' which is so strictly a virtuoso number that it would seem to have been written for the special purpose of putting difficulties in the way, was well handled and showed not only careful work but a firm and good technique. Mr. Meyer's Berlin debut was an assured success."

Of Miss Meyer, the Music Leader and Concert Goer says: "The young pianist, Marie Meyer, is one of the most talented of Chicago players and has made a success both in Germany and in the Western states."

The Journal of LaFayette, Ind., says: "The last recital was given by Miss L. Marie Meyer, pianist, and Otto Meyer, violinist, of La Port. Both are talented artists and their work was exceptionally fine. The audience was pleased and manifested its appreciation by hearty applause."

The Times of Hammond says: "Miss Marie Meyer supplied the piano numbers and presented a beautiful picture at the instrument with her mass of golden hair and sweet face. Her work was artistic in every sense of the word. Her tone values were always well measured and her rendition of each of her numbers was satisfactory in the extreme. Her touch was firm and sure at all times and her technique was greatly admired from a student viewpoint. The future holds much of praise in store for the charming young artist."

Twilight Workers

The Twilight Workers of the Swedish Lutheran church, will give a supper Friday evening, April 16. An auction sale will also be held.

Marriage Licenses

April 12—Karl Huhtala and Miss Sandra Roukala.

April 13—August Martin Lueck and Miss Louise Dorothy Sophie Knuppel.

April 13—Jalmor A. Laikinen and Miss Selma Antia.

JUSTIFIED IN KILLING WIFE

Court martial Finds French Officer Not Guilty.

Paris, April 12.—Captain Jean Herall, an officer in the French cavalry, was acquitted by a court martial which tried him for killing his wife at Compiègne last November because she persisted in following the army in order to be near him.

Previous to the shooting orders had been issued by the military authorities prohibiting officers and soldiers from receiving their wives during the campaign. It was brought out that Captain Herall became mentally unbalanced through worry over the possible results of his wife's refusal to obey this law and leave him.

PERSONAL MENTION

Miss Cecil Herbert is visiting in Merrifield.

Mrs. Emma Forsythe is very sick at her home.

Mrs. B. B. Gaylord, of Crosby, was in the city today.

Miss Sigrid Hendrickson went to Wadena this noon.

Mrs. R. T. James returned this afternoon to her home in Barrows.

Miss Clara Evenson has returned from Nymore where she visited her father.

Miss Nora Hurley has returned to Pine River after a short visit with her parents.

Miss Belle Titus returned Saturday evening from a visit with relatives in Bemidji.

Mrs. George Ebinger and children, of Nymore, are visiting her parents, Mr. and Mrs. A. P. Appgar.

Miss Rena Sherwin, of Monticella, guest of Mrs. W. F. Dieckhaus, returned home this afternoon.

The Misses Dolly and Eileen Irwin visited their aunt, Mrs. Omer Burton at Carleton, returning home Saturday.

Mrs. F. W. Titus went to Rochester this afternoon, called there by the death of her brother, Edward D. Derlet.

Miss Mathilda Johnson, who has been the guest of her friend, Miss Anna Erickson, returned this afternoon to her home in Duluth.

Miss Morrell Russell, the 13 year old daughter of Mr. and Mrs. Thomas Russell, was operated on Wednesday at the Northwestern hospital for ruptured appendix and is seriously ill.

Miss Doris Schmale, of Duluth, spent several days with her friends, Mr. and Mrs. Walter Leslie and the latter's brother, M. E. Stauner and on Tuesday went to Neutral to make her home with her uncle for a short time.

Mrs. William Wood and mother, Mrs. L. Scribner, of Staples, were called to Duluth today on account of the illness of Mrs. Wm. L. Peabody, sister of Mrs. Wood. All the ladies mentioned at one time lived in Brainerd.

MUSIC AND DRAMA

At the Grand

Tonight, Otis Turner has achieved another tremendous artistic success in "Changed Lives," a three-reel modern war drama featuring Herbert Rawlinson and Anna Little. Suppose you were a very beautiful girl and suddenly came upon a hideous, horrible, repulsive creature of the jungle, what would you do? Suppose you were the assistant of a detective who made his specialty the studying and fathoming of the deepest, most mysterious and blackest of dastardly crimes. All this will be solved when you see the starting of the "Black Box," April 19 and 20.

DISPATCH WANT ADS PAY

SJORGREN SUES FOR \$10,000 DAMAGES

Special to the Dispatch:

Ironton, Minn., April 15—United States marshals and deputies were on the Cuyuna range today serving papers in a damage suit for \$10,000 instituted by Teodor Sjogren against those charged with kidnapping him at the time of the miners strike at Crosby two years ago. Minneapolis attorneys appear for him. The case will be tried in the federal court in Duluth.

KILLED IN THE ARMOUR PIT MINE

Special to the Dispatch:

Crosby, April 15—Struck by an ore train in the pit mine of the Armour No. 1 mine near Ironton and Crosby, Peter Landie, aged 45, and married, track walker, died four hours later. Landie had just switched out a loaded train and stepped on the track squarely in front of an empty train entering the open pit.

GRACE FUDA FOUND IN BRAINERD

Special to the Dispatch:

Arriving in Brainerd last night Grace Fuda's father found his daughter who has been missing since April 7 and will take her home to New Duluth this afternoon. A search almost country wide had been instituted for the 16 year old girl.

Bury Aitkin Girl Who Killed Self

Special to the Dispatch:

Aitkin, Minn., April 15—The body of Miss Ella Carron, the Aitkin girl who committed suicide Sunday evening at Deerwood by taking carbolic acid, arrived here Monday afternoon accompanied by Frank Johnson of Ironton, a brother-in-law, and E. E. Seavey, the local undertaker, and was taken to the home of Mr. and Mrs. Angus McMullin, the latter being the dead girl's mother. The funeral was held there Tuesday afternoon conducted by Rev. A. L. Richardson and interment made in Lakeview cemetery.

WIDESPREAD ANGER

(By United Press)

London, April 2—By mail to New York—Widespread anger against America prevails everywhere in Germany; England is the object of intense hatred; France is pitied and Russia is regarded as merely stupid and inferior, according to David Cradwohl of San Francisco. Cradwohl has just returned from a visit to Leipzig, Nuremberg, Sonneberg and Berlin, as a buyer of toys. The sale of ammunition by American firms to the allies has aroused a bitter feeling that has penetrated into every part of Germany, he said. There is no truth in the report that Germany is nearing starvation Cradwohl said. Likewise stories that Germany has exhausted her draft of men of military age, he declared to be inventions.

HEALTH AND BEAUTY.

To increase the growth of the eyebrows rub pure olive oil in regularly each night.

To cure hysteria wrap mustard plasters on hands, wrists, soles and palms and allow patient to rest.

The juice of a lemon in hot water on awakening in the morning is an excellent liver corrective and for stout women is said to be a flesh reducer.

To treat frost bites rub part affected with snow or ice, or immerse in ice water. Later saturate cloth with warm water or alcohol and rub parts.

Almond milk is excellent for whitening and softening the skin, but its effect will not be noticed until after weeks of constant and regular application.

One teaspoonful of baking soda mixed with one-half glassful of water and applied with a soft cloth is good for pimples, fever blisters, burns and poison from ivy.

Were good, vigorous walking more generally and regularly engaged in by both sexes the necessity for gymnasia and other artificial substitutes would not be so apparent.

When a cramp in the leg comes on take a good, long string—a garter will do—wind it round the leg over the place that is affected and take the end in each hand and give it a sharp pull—one that will cause a little pain. Instantly the cramp will depart, and the sufferer can return to bed safely assured it will not come on again that night.

EVENING GOWNS.

After Easter is the time for showing new conceits in filmy frocks.

After Lent is past the spring girl shows all the new frocks she has gathered during that time of penance. The gown pictured in this illustration shows the tendency in evening frocks.

This gown is developed in white net embroidered in rose design and worn

PRETTY NEW CREATION.

over a slip of white pussy willow taffeta. The bodice is girdled with a three inch band of white and rose colored tapestry, cloth finished, with a rosette at the side front. A gathered tunic falls over a short gathered foundation skirt.

About New Suits.

The strongest feature of the new suits is the fullness of the coats and skirts. The coats are very much shorter to allow the wider skirt full sway. They are cut in a variety of shapes. A great number of them dip in front and quite a few are belted. The belts are placed at both the normal and the high waist line, but the latter position is more noticeable on account of its contrast to the long waisted effect in vogue during the last season.

Yokes are seen on skirts. From them the material hangs either in folds or in plaits.

The materials used for the new suits are serges, poplins, covets, novelty weaves, silks and gabardines.

Grays and tans in light shades are greatly favored. Among these are putty, sand, beige and battleship gray. For the people who cling to blues there are the beautiful shades of navy, dark Copenhagen, army and Belgian blues.

Smart Lace Trimmed Dresses.

Cotton dresses trimmed with cluny, valenciennes and fillet laces will register smartness, while bands for banding, flounces and ruffles will scarcely be less modish. Venice in light effects will feature, especially in conjunction with lingerie frocks.

Small Anvils.

The anvil that rings to the sturdy blacksmith's sledge may weigh 200, 300 or 400 pounds, but there are anvils whose weight is counted in ounces. These are used by jewelers, silver-smiths and various other workers. Counting shapes, sizes, styles of finish, and so on, these little anvils are made in scores of varieties, ranging in weight from fifteen ounces up to a number of pounds each. All the little anvils are of the finest steel. They are all trimly finished, often nickel plated, and those surfaces that are brought into use are made as smooth as glass.

Homemade Heathen.

A San Francisco clergyman recently at the close of his sermon announced that in the course of the week he expected to go on a mission to the heathen. One of his parishioners exclaimed: "Why, my dear doctor, you have never told us one word of this before. It leaves us unprepared. What shall we do?"

"Brother," said the minister solemnly, "I shall not leave town."—Argonaut.

Squaring the Circle.

The problem of squaring the circle consists in finding a square equal in area to a circle of given radius. Its solution depends upon ascertaining the precise ratio between the diameter and its circumference. Mathematics demonstrate this proposition to be impossible of solution.

WOMAN'S REALM

In Joint Recital

Otto Meyer, violinist and Mme. Marie Ten Broeck, pianist, will be heard in joint recital at Elks hall Friday evening, April 16, under the auspices of the Brainerd Musical club.

The following press notices from German papers are given. The Berliner Neueste Nachrichten says of Mr. Meyer: "On Monday the violinist, Otto Meyer, appeared in concert. He is a ripening artist with a masterly bow and certain intonation."

The Deutsche Reichsanzeiger, Berlin, says: "He is master of his instrument and his tone is pure and noble."

The Continental Herald, Berlin, says: "Mr. Meyer shows that his work has been builded carefully and well. He brings out an absolutely pure and sweet tone, round and full and in his Tenaglia aria the beautiful legato and 'singing' tone stamped him as an artist with a future. The Paganini 'Hexentanz,' which is so strictly a virtuoso number that it would seem to have been written for the special purpose of putting difficulties in the way, was well handled and showed not only careful work but a firm and good technique. Mr. Meyer's Berlin debut was an assured success."

Of Miss Meyer, the Music Leader and Concert Goer says: "The young pianist, Marie Meyer, is one of the most talented of Chicago players and has made a success both in Germany and in the Western states."

The Journal of LaFayette, Ind., says: "The last recital was given by Miss L. Marie Meyer, pianist, and Otto Meyer, violinist, of La Port. Both are talented artists and their work was exceptionally fine. The audience was pleased and manifested its appreciation by hearty applause."

The Times of Hammond says: "Miss Marie Meyer supplied the piano numbers and presented a beautiful picture at the instrument with her mass of golden hair and sweet face. Her work was artistic in every sense of the word. Her tone values were always well measured and her rendition of each of her numbers was satisfactory in the extreme. Her touch was firm and sure at all times and her technique was greatly admired from a student viewpoint. The future holds much of praise in store for the charming young artist."

Twilight Workers

The Twilight Workers of the Swedish Lutheran church, will give a supper Friday evening, April 16. An auction sale will also be held.

Marriage Licenses

April 12—Karl Huhtala and Miss Sandra Roukala.

April 13—August Martin Luack and Miss Louise Dorothy Sophie Knuppel.

April 13—Jalmor A. Laikinen and Miss Selma Antia.

JUSTIFIED IN KILLING WIFE

Court martial finds French officer not guilty.

Paris, April 12.—Captain Jean Herail, an officer in the French cavalry, was acquitted by a court martial which tried him for killing his wife at Compiegne last November because she persisted in following the army in order to be near him.

Previous to the shooting orders had been issued by the military authorities prohibiting officers and soldiers from receiving their wives during the campaign. It was brought out that Captain Herail became mentally unbalanced through worry over the possible results of his wife's refusal to obey this law and leave him.

PERSONAL MENTION

Miss Cecil Herbert is visiting in Merrifield.

Mrs. Emma Forsythe is very sick at her home.

Mrs. B. B. Gaylord, of Crosby, was in the city today.

Miss Sigrid Hendrickson went to Wadena this noon.

Mrs. R. T. James returned this afternoon to her home in Barrows.

Miss Clara Evenson has returned from Nymore where she visited her father.

Miss Nora Hurley has returned to Pine River after a short visit with her parents.

Miss Belle Titus returned Saturday evening from a visit with relatives in Bemidji.

Mrs. George Ebinger and children, of Nymore, are visiting her parents, Mr. and Mrs. A. P. Appgar.

Miss Rena Sherwin, of Monticella, guest of Mrs. W. F. Dieckhaus, returned home this afternoon.

The Misses Dolly and Eileen Irwin visited their aunt, Mrs. Omer Burton at Carleton, returning home Saturday.

Mrs. F. W. Titus went to Rochester this afternoon, called there by the death of her brother, Edward D. Derlet.

Miss Mathilda Johnson, who has been the guest of her friend, Miss Anna Erickson, returned this afternoon to her home in Duluth.

Miss Morrell Russell, the 13 year old daughter of Mr. and Mrs. Thomas Russell, was operated on Wednesday at the Northwestern hospital for ruptured appendix and is seriously ill.

Miss Doris Schmale, of Duluth, spent several days with her friends, Mr. and Mrs. Walter Leslie and the latter's brother, M. E. Stauner and on Tuesday went to Neutral to make her home with her uncle for a short time.

Mrs. William Wood and mother, Mrs. L. Scribner, of Staples, were called to Duluth today on account of the illness of Mrs. Wm. L. Peabody, sister of Mrs. Wood. All the ladies mentioned at one time lived in Brainerd.

MUSIC AND DRAMA

At the Grand

Tonight, Otis Turner has achieved another tremendous artistic success in "Changed Lives," a three-reel modern war drama featuring Herbert Rawlinson and Anna Little. Suppose you were a very beautiful girl and suddenly came upon a hideous, horrible, repulsive creature of the jungle, what would you do? Suppose you were the assistant of a detective who made his specialty the studying and fathoming of the deepest, most mysterious and blackest of dastardly crimes. All this will be solved when you see the starting of the "Black Box," April 19 and 20.

DISPATCH WANT ADS PAY

SJORGREN SUES FOR \$10,000 DAMAGES

Special to the Dispatch:

Ironton, Minn., April 15.—United States marshals and deputies were on the Cuyuna range today serving papers in a damage suit for \$10,000 instituted by Teodor Sjogren against those charged with kidnapping him at the time of the miners strike at Crosby two years ago. Minneapolis attorneys appear for him. The case will be tried in the federal court in Duluth.

KILLED IN THE ARMOUR PIT MINE

Special to the Dispatch:

Crosby, April 15.—Struck by an ore train in the pit mine of the Armour No. 1 mine near Ironton and Crosby, Peter Landie, aged 45, and married, track walker, died four hours later. Landie had just switched out a loaded train and stepped on the track squarely in front of an empty train entering the open pit.

GRACE FUDA FOUND IN BRAINERD

Special to the Dispatch:

Arriving in Brainerd last night Grace Fuda's father found his daughter who has been missing since April 7 and will take her home to New Duluth this afternoon. A search almost country wide had been instituted for the 16 year old girl.

Bury Aitkin Girl Who Killed Self

Special to the Dispatch:

Aitkin, Minn., April 15.—The body of Miss Ella Carron, the Aitkin girl who committed suicide Sunday evening at Deerwood by taking carbolic acid, arrived here Monday afternoon accompanied by Frank Johnson of Ironton, a brother-in-law, and E. E. Seavey, the local undertaker, and was taken to the home of Mr. and Mrs. Angus McMullin, the latter being the dead girl's mother. The funeral was held there Tuesday afternoon conducted by Rev. A. L. Richardson and interment made in Lakeview cemetery.

WIDESPREAD ANGER

(By United Press)

London, April 2.—By mail to New York—Widespread anger against America prevails everywhere in Germany; England is the object of intense hatred; France is pitied and Russia is regarded as merely stupid and inferior, according to David Cradwohl of San Francisco. Cradwohl has just returned from a visit to Leipzig, Nuremberg, Sonneberg and Berlin, as a buyer of toys. The sale of ammunition by American firms to the allies has aroused a bitter feeling that has penetrated into every part of Germany, he said. There is no truth in the report that Germany is nearing starvation Cradwohl said. Likewise stories that Germany has exhausted her draft of men of military age, he declared to be inventions.

HEALTH AND BEAUTY.

To increase the growth of the eyebrows rub pure olive oil in regularly each night.

To cure hysteria wrap mustard plasters on hands, wrists, soles and palms and allow patient to rest.

The juice of a lemon in hot water on a waking in the morning is an excellent liver corrective and for stout women is said to be a flesh reducer.

To treat frost bites rub part affected with snow or ice, or immerse in ice water. Later saturate cloth with warm water or alcohol and rub parts.

Almond milk is excellent for whitening and softening the skin, but its effect will not be noticed until after weeks of constant and regular application.

One teaspoonful of baking soda mixed with one-half glassful of water and applied with a soft cloth is good for pimples, fever blisters, burns and poison from ivy.

Were good, vigorous walking more generally and regularly engaged in by both sexes the necessity for gymnasia and other artificial substitutes would not be so apparent.

When a cramp in the leg comes on take a good, long string—a garter will do—wind it round the leg over the place that is affected and take the end in each hand and give it a sharp pull—one that will cause a little pain. Instantly the cramp will depart, and the sufferer can return to bed safely assured it will not come on again that night.

EVENING GOWNS.

After Easter is the time for showing new conceits in filmy frocks.

Who Made The Shells

By William G. Shepherd, United Press Staff Correspondent

(Copyright, 1915, by United Press) (Copyrighted in Great Britain)

(Wm. G. Shepherd, United Press staff correspondent, is the first American newspaper man granted the privilege of visiting the British headquarters in the field, since Lord Kitchener's new army of a "million" men was sent to the front under official credentials—Editor.)

Headquarters of the British Army, North France, April 15.—The Germans are firing shells, marked "made in the United States," against the British. They have been doing so ever since the American military attaches were withdrawn from Germany.

It is understood generally that the American attaches were withdrawn, because the Germans were repeatedly calling to their attention the fact that the Russians were using American shells. The situation therefore became so embarrassing to the attaches with the German army that they found it necessary to leave.

Almost as soon as the attaches departed from Germany, British officers began to note that the Germans were using shells apparently of American manufacture. These bear the mark "R. Stock & Co." There is a sufficiently large collection of these shells at British headquarters to establish the fact that the Germans had a considerable supply of supposed American shells. Whether the Germans are using them so as to indicate to the English that their navy is not preventing the shipment of ammunition from the U. S. to Germany or whether the intention is to create criticism of the U. S. in England are questions yet unsolved.

There is no doubt that the shipment of ammunition from the U. S. to Germany ended almost as soon as the war started, owing to the activity of the English fleet. The shells which the Germans are now using were therefore sold to Germany before the war, or were not made in the U. S. at all, but were falsely labeled.

STOCK & CO. NOT KNOWN

(By United Press)

New York, April 15.—Apropos of this the Remington Arms Co., here stated positively that there was no American firm of ammunition manufacturers named "R. Stock & Co.", the firm named referred to in William G. Shepherd's cable to the United Press. Officials of the Remington company added they knew of no such corporation abroad.

What War Moves Mean

By J. W. T. Mason.
Written for the United Press

New York, April 15.—Following reports yesterday that fighting had been renewed in Bukovina, came a report today from Vienna that the Russians had been checked in the Carpathians. The two facts are inter-related and suggest one more failure of the Russians to assist materially the task of confronting the czar's western allies. Hungary again has been saved from the invasion so dreaded by the Teutonic nations. For the time being Buda Pest is safe and the plains of the Magyars are still secure against devastation by the Slav armies. Few details have yet been received concerning the mountain fighting, so the cause of the Russian defeat cannot with certainty be indicated. It is possible, however, that a potent part was played by the delay in sending the Przemysl army to the Carpathians after the fall of the San Fortress. No announcement of the appearance of the Przemysl forces in the Carpathians was made until nearly a fortnight after the capitulation of the Austrian stronghold. During the interval the Germans were rushing new corps to the defense of Hungary and Russia was outplayed in the realignment. The circumstances arraigns Russian leadership the more severely because all advantage of transport was with the Slavs. The railway system on the Galician side of the Carpathians is far more available for rapid concentration of troops than are the lines on the Hungarian side. The former, which is under control of the Russians is measurably comparable to the German strategic railways of East Prussia. On the Hungarian side of the mountains, however, there is no convergence of the permanent ways which run through mountain passes from different directions at considerable distances apart.

The Russians general staff thus had a positive advantage in railway communications, such as that to which Petrograd ascribed von Hindenburg's victories. Yet the Slavs were unable to make the proper use of the railways and nowhere have they succeeded in duplicating von Hindenburg's tactics.

Unfortunately for France and England military leadership is still woefully lacking in Russia and the third Hungarian campaign of the Slavs is ended before it has really begun.

IS ITALY COMING IN

By William Phillip Simms
(U. P. Press Staff Correspondent)

Ventimiglia, Italy, March 23, by mail to New York.—Is Italy coming into the war? This question was put to an Italian army officer here this afternoon as he stood on the drill ground watching his regiment of Bersaglieri going through its paces. He did not reply immediately. He seemed to be turning something over in his mind. Then he faced the questioners: "Chi la sa?" (Who knows.)

A shrug of the shoulders accompanied the words, a gesture that told more than the verbal answer. One interpreted it to mean that Italy has been balancing so long now, it will be useless to risk further guesses.

In the meantime troops are being drilled like mad. On the parade ground ordinarily just a grassy field bordering the short, pebbly beach of the Mediterranean—a regiment of Italy's crack troops was being instructed in the latest war tactics. Drill sergeants worked men in squads chasing them all over the place at a terrific pace, which makes the Bersaglieri the fastest marching body of troops in the world—nearly 160 steps to the minute, or as fast as a human can walk without breaking into a run. To keep them in step the sergeant followed at their sides, saying something that sounded like "Hunch gwee, hunch gwee, hunch gwee," with the accent on the gwee. The bersaglieri is said to have had its source in the brain of Napoleon, who once won a battle because he knew how fast every army in Europe marched. He figured that if the English step was 110 to the minute, the Russian 115, the Austrian 120, and so on, and that his army marched at the rate of 130 steps to the minute, he would arrive at a certain place before the enemy. He did arrive first and because he did he won the battle. The Italians are said to have speeded up the bersaglieri, making the double quick step the ordinary one, because of the victory of Napoleon. After each drill sergeant had put his quad through its paces, the squads would be combined into paces and maneuvered all over again. After this followed battalion and regimental maneuvers, officers now and then taking command of the unit without warning and drilling them to do all manner of sham fighting in response to their tiny silver whistles.

"Toot" shrills the little whistle. The Bersaglieri comes to attention. "Toot," they fix bayonets. "Toot," they shoulder their guns. "Toot," they begin to march—"hunch gwee, hunch gwee, hunch gwee." "Toot" they form in a single file. "Toot"—they march. "Toot"—they fire. "Toot"—they charge bayonets with yells calculated to frighten the enemy to death. Then the officers saunter away to other perspiring troops.

Perhaps there are in Italy, a few men who know exactly what Italy is going to do, but certainly the man in the street does not have the slightest idea. Ask him and he replies like the army officer replied with a shrug of his shoulders and something which sounds like "keelosa!" But after seeing all the military preparations, the casual traveler can't help feeling that the bersaglieri may not know where they are going—but they are on their way.

PACING MARKS ARE LOWERED

In Forty-nine Years Records Have Been Reduced 26 1/2 Seconds.

The recent sale of Directum 1, the pacing champion, for a sum said to be close to \$45,000 brings to mind the remarkable gain in speed made by the side action racer in recent years. A study of the records from 1866 to 1915 shows that in this period of forty-nine years the mile records made either in competition or against time has been reduced from 2:21 1/2 to 1:55, a gain of twenty-six and one-half seconds. Directum 1, holds the race record of 1:58, made at Columbus, O., on Sept. 30, 1914, and Dan Patch the against time record of 1:55, made at St. Paul on Sept. 8, 1906.

Flags of a Ship.

Here is the complete story of a ship's flags, where they are flown and what they signify:

On the staff in the bow—The jack of nation to which vessel belongs.

On the foremast—Flag of foreign nation vessel is going to. If going to own national port she carries flag of nation she is leaving if that nation happens to be foreign.

On the mainmast—The house flag, always.

On the aftermast (if she has one)—Flag bearing vessel's name.

On the mizzen—Nothing.

On the staff at the stern—The national ensign of the nation to which the vessel belongs.—New York Tribune.

Man and His Life.

Most men employ the first part of life to make the other part miserable.—La Bruyere.

DEMOCRATS ARE SURE OF SUCCESS

Wilson and Bryan Can See Nothing But Victory.

ELECTIONS ARE NO FORECAST

Administration Holds That Party Reverses in Various Cities Have No Bearing on National Issues—Borah of Idaho Not Disillusioned by Paper Nomination For President.

By ARTHUR W. DUNN.

Washington, April 15.—[Special.]—It is to be expected that Democratic officials will say there is no significance in the elections in municipalities when the party is defeated. It would be absurd for any one connected with the administration to acknowledge that the political tide is setting against the Democratic party, although the elections last fall and this spring may so indicate.

It is the political duty of every person connected with the administration to insist that everything is going along all right and that Democratic success next year is assured.

And the Democrats are playing the game. More than that, there has been a steady flow of optimism from the White House. One of the principal features of the weekly conference between the president and the newspaper correspondents is assurances by the president that the business outlook is brightening.

Not All False Confidence.

And it is a mistake to assume that this talk is "whistling to keep up their courage." There never was such an optimist as Secretary Bryan, and he has inspired his associates with the same feeling. The president also is one of the most hopeful and cheerful men. He never despairs of success either in politics or legislation.

It would be a bold member of the administration who would go to either Mr. Wilson or Mr. Bryan and tell him that the outlook for Democratic success next year has been somewhat clouded by recent events.

Borah of Idaho.

In every list of presidential possibilities for the Republican nomination the name of Borah of Idaho is included. While this may gratify the Idaho senator it does not in the least cause him palpitation of the heart. Borah has no illusions or delusions about the presidency. He does not take the stand that he would not accept the nomination, for it is known that almost any man would accept. But he never has entertained the idea that any party is going west of the Rocky mountains for a candidate or will select a candidate from a state having but four electoral votes. Consequently the Idaho senator can listen to the talk and read the advance notices without getting all stirred up over his presidential prospects.

Japs in Louisiana.

Japanese have been going into Louisiana lately and men from that state are trying to find a method to prevent them from colonizing in any great number. The south has generally been opposed to all classes of immigrants, particularly those which seek that region, and it is natural that they are much opposed to Japanese. A race war in Louisiana is likely to be more severe than in California for those southerners are apt to make it effective.

Bootleggers Make Converts.

There is no agency which makes as many converts in favor of prohibition and dry territory as the bootleggers, who try to smuggle liquors into prohibited territory. It is because of the unlawful traffic in liquor, the determination of liquor to avoid the laws of states and communities, that the nation wide prohibition movement is becoming so popular. The determination of liquor to find sale in communities which have declared against its sale makes converts for the prohibition cause among many who would not otherwise be interested.

Pinchot the Stormy Petrel.

Gifford Pinchot may be termed the stormy petrel, for he is always in the midst of things. He was a member of the Roosevelt "tennis cabinet;" he was one of the first men to buck against the Taft administration; he was one of the first men to fly across the ocean to meet T. R. when that distinguished traveler returned from Africa; he was one of the men who broke with Roosevelt a few months later; he was one of the first men to urge Roosevelt to become a candidate in 1912; one of the first to follow Roosevelt into the new party and two years later was ready to sacrifice himself in trying to sweep back the Penrose following in Pennsylvania. Those who know Pinchot are convinced that he rather liked the sensation of being expelled from Belgium by Germany.

Who Is Responsible?

Day after day there appears before the home of one of the attaches of the German embassy an Italian music vender, and among other tunes he grinds out "Tipperary." Now, who is responsible for this joke? Similar attempts at humor have been tried before, but this may be real serious. It may afford the Germans another opportunity to kick our state department in the slats.

A MAN will go a long way to get the Real Tobacco Chew. Once he learns its satisfying quality he just can't be contented with the old kind.

The longer he knows it the better he likes it and the more he talks about it to his friends.

A little chew of pure, rich, mellow tobacco—cut fine, short shred—seasoned and sweetened just enough, cuts out so much of the grinding and spitting.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

A TREE FALLACY.

The Idea That the Branches Rise as the Trunk Grows.

It is commonly believed that as a tree grows it elevates the lower branches and any other thing firmly attached to it. As a result, curious stories like the following circulate:

A Canadian farmer built a barn on willow posts set in the ground. The next spring happened to be wet, and he noticed that the horses had trouble in stepping up to the floor on entering. Finally it dawned upon him that the willow posts, which by this time had put out branches and leaves, were growing and elevating the whole barn.

The process continued until the floor was some nine or ten feet high.

Then he put in another floor at the ground level.

At the time the story was told this second floor was four feet from the ground, and the farmer was hoping for a wet season so that the elevation might continue until he could put in a third floor.

It is impossible to take this tale seriously, but many folks believe stories with as little foundation. Sometimes a hog tight fence is attached to green posts. In a few years the owner notices that good sized pigs can crawl underneath it, and often he concludes the green posts have grown and elevated the whole fence.

This elevation, however, happens also with seasoned posts and is due to another cause. Water expands when it freezes, and in the ground the expansion cannot be downward or sideways, so it must be upward. Consequently, every time the ground freezes the posts are pushed upward a fraction of an inch. When thawing occurs the weight of the fence is not sufficient to push them back.

Thus every freeze means a slight elevation, and in the course of three or four years the fence may no longer be hog tight.

In the same way wheat is lifted out of the ground in the early spring when the ground freezes for several nights in succession and thaws in the daytime.

Farmers and city dwellers alike believe that a growing tree elevates its lower branches; otherwise, they say, how is it that a three foot cherry tree in a few years has not a branch within four feet of the ground? If elevation really occurred, however, it is difficult to see how we could ever have a low headed tree, and that it actually does not occur is shown by careful observation spread over a number of years. The lower branches gradually die as they are shaded by the upper ones and in the course of time drop off. This natural pruning can be seen in all its stages at the same time in any fairly dense forest. Here it is easily seen that only branches in the light continue to thrive and live.

No branch is elevated to any extent after it is a year old.—Farm and Fireside.

Future Assured.

"What makes you think America has a great musical future?"

"The noise we can make at an election or a ball game shows that we have great voices. All they need is cultivation."—Washington Star.

BRAINERD DRUGGIST

HAS VALUABLE AGENCY.

Johnson's Pharmacy has the Brainerd agency for the simple mixture of Buckthorn bark, glycerine, etc., known as Adler-I-ka, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of ill matter from the body that JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. The QUICK action of Adler-I-ka is astonishing.—Advt.

Clever Singer With the Frank Winninger Co., this Week at Opera House

Frank Winninger, owner and manager of the Winninger Variety players appearing this week at the Park theatre is veritably a whole show in himself, but he has selected music with snap and sparkle, a beauty show chorus and cast which makes musical comedy the bubbling delightful entertainment it should be. His plays are well cast, the production well staged and the chorus well trained.

Earl Young, who plays juvenile leads in the Winninger repertoire of musical shows, is a "find" of Winninger's. Shortly before the season op-

ened Mr. Winninger visited the North American cafe in Chicago which is popular for its cabaret. Young who was singing "rag" with a twist peculiarly Earl Young, and good to ears attuned to syncopation, attracted the attention of Mr. Winninger with the result that he was engaged for the Variety Players. Young's ability to put over new songs soon brought its own reward in that he was given an inflated part which has now assumed the proportion of one of the principals in the cast.

Who Made The Shells

By William G. Shepherd, United Press Staff Correspondent
(Copyright, 1915, by United Press)
(Copyrighted in Great Britain)
(Wm. G. Shepherd, United Press staff correspondent, is the first American newspaper man granted the privilege of visiting the British headquarters in the field, since Lord Kitchener's new army of a "million" men was sent to the front under official credentials.—Editor.)
Headquarters of the British Army, North France, April 15.—The Germans are firing shells, marked "made in the United States," against the British. They have been doing so ever since the American military attaches were withdrawn from Germany.
It is understood generally that the American attaches were withdrawn, because the Germans were repeatedly calling to their attention the fact that the Russians were using American shells. The situation therefore became so embarrassing to the attaches with the German army that they found it necessary to leave.
Almost as soon as the attaches departed from Germany, British officers began to note that the Germans were using shells apparently of American manufacture. These bear the mark "R. Stock & Co." There is a sufficiently large collection of these shells at British headquarters to establish the fact that the Germans had a considerable supply of supposed American shells. Whether the Germans are using them so as to indicate to the English that their navy is not preventing the shipment of ammunition from the U. S. to Germany or whether the intention is to create criticism of the U. S. in England are questions yet unsolved.
There is no doubt that the shipment of ammunition from the U. S. to Germany ended almost as soon as the war started, owing to the activity of the English fleet. The shells which the Germans are now using were therefore sold to Germany before the war, or were not made in the U. S. at all, but were falsely labeled.

STOCK & CO. NOT KNOWN

(By United Press)
New York, April 15.—Apropos of this the Remington Arms Co., here stated positively that there was no American firm of ammunition manufacturers named "R. Stock & Co.", the firm named referred to in William G. Shepherd's cable to the United Press. Officials of the Remington company added they knew of no such corporation abroad.

Clever Singer With the Frank Winniger Co., this Week at Opera House
Frank Winniger, owner and manager of the Winniger Variety players appearing this week at the Park theatre is veritably a whole show in himself, but he has selected music with snap and sparkle, a beauty show chorus and cast which makes musical comedy (the bubbling delightful entertainment it should be. His plays are well cast, the production well staged and the chorus well trained.

What War Moves Mean

By J. W. T. Mason.
Written for the United Press
New York, April 15.—Following reports yesterday that fighting had been renewed in Bukovina, came a report today from Vienna that the Russians had been checked in the Carpathians. The two facts are inter-related and suggest one more failure of the Russians to assist materially the task of confronting the czar's western allies. Hungary again has been saved from the invasion so dreaded by the Teutonic nations. For the time being Buda Pest is safe and the plains of the Magyars are still secure against devastation by the Slav armies. Few details have yet been received concerning the mountain fighting, so the cause of the Russian defeat cannot with certainty be indicated. It is possible, however, that a potent part was played by the delay in sending the Przmysl army to the Carpathians after the fall of the San Fortress. No announcement of the appearance of the Przmysl forces in the Carpathians was made until nearly a fortnight after the capitulation of the Austrian stronghold. During the interval the Germans were rushing new corps to the defense of Hungary and Russia was outplayed in the realignment. The circumstances arraigns Russian leadership the more severely because all advantage of transport was with the Slavs. The railway system on the Galician side of the Carpathians is far more available for rapid concentration of troops than are the lines on the Hungarian side. The former, which is under control of the Russians is measurably comparable to the German strategic railways of East Prussia. On the Hungarian side of the mountains, however, there is no convergence of the permanent ways which run through mountain passes from different directions at considerable distances apart.
The Russians general stag thus had a positive advantage in railway communications, such as that to which Petrograd ascribed von Hindenburg's victories. Yet the Slavs were unable to make the proper use of the railways and nowhere have they succeeded in duplicating von Hindenburg's tactics.
Unfortunately for France and England military leadership is still woefully lacking in Russia and the third Hungarian campaign of the Slavs is ended before it has really begun.

IS ITALY COMING IN

By William Phillip Simms
(U. P. Press Staff Correspondent)
Ventimiglia, Italy, March 23, by mail to New York.—Is Italy coming into the war? This question was put to an Italian army officer here this afternoon as he stood on the drill ground watching his regiment of Bersaglieri going through its paces. He did not reply immediately. He seemed to be turning something over in his mind. Then he faced the questioners: "Chi la sa?" (Who knows.)
A shrug of the shoulders accompanied the words, a gesture that told more than the verbal answer. One interpreted it to mean that Italy has been balancing so long now, it will be useless to risk further guesses.
In the meantime troops are being drilled like mad. On the parade ground ordinarily just a grassy field bordering the short, pebbly beach of the Mediterranean—a regiment of Italy's crack troops was being instructed in the latest war tactics. Drill sergeants worked men in squads chasing them all over the place at a terrific pace, which makes the Bersaglieri the fastest marching body of troops in the world—nearly 160 steps to the minute, or as fast as a human can walk without breaking into a run. To keep them in step the sergeant followed at their sides, saying something that sounded like "Hunch gwee, hunch gwee, hunch gwee," with the accent on the gwee. The bersaglieri is said to have had its source in the brain of Napoleon, who once won a battle because he knew how fast every army in Europe marched. He figured that if the English step was 110 to the minute, the Russian 115, the Austrian 120, and so on, and that his army marched at the rate of 130 steps to the minute, he would arrive at a certain place before the enemy. He did arrive first and because he did he won the battle. The Italians are said to have speeded up the bersaglieri, making the double quick step the ordinary one, because of the victory of Napoleon. After each drill sergeant had put his squad through its paces, the squads would be combined into paces and maneuvered all over again. After this followed battalion and regimental maneuvers, officers now and then taking command of the unit without warning and drilling them to do all manner of sham fighting in response to their tiny silver whistles. "Toot" shrills the little whistle. The Bersaglieri comes to attention. "Toot," they fix bayonets. "Toot"—they shoulder their guns. "Toot"—they begin to march—"hunch gwee, hunch gwee, hunch gwee." "Toot" they form in a single file. "Toot"—they kneel. "Toot"—they fired. "Toot"—they charge bayonets with yells calculated to frighten the enemy to death. Then the officers saunter away to other perspiring troops.
Perhaps there are in Italy, a few men who know exactly what Italy is going to do, but certainly the man in the street does not have the slightest idea. Ask him and he replies like the army officer replied with a shrug of his shoulders and something which sounds like "kaclosa!" But after seeing all the military preparations, the casual traveler can't help feeling that the bersaglieri may not know where they are going—but they are on their way.

PACING MARKS ARE LOWERED

In Forty-nine Years Records Have Been Reduced 26 1/2 Seconds.
The recent sale of Directum 1, the pacing champion, for a sum said to be close to \$45,000 brings to mind the remarkable gain in speed made by the side action racer in recent years. A study of the records from 1866 to 1915 shows that in this period of forty-nine years the mile records made either in competition or against time have been reduced from 2:21 1/2 to 1:55, a gain of twenty-six and one-half seconds. Directum 1 holds the race record of 1:58, made at Columbus, O., on Sept. 30, 1914, and Dan Patch the against time record of 1:55, made at St. Paul on Sept. 8, 1906.

Flags of a Ship.

Here is the complete story of a ship's flags, where they are flown and what they signify:
On the staff in the bow—The jack of nation to which vessel belongs.
On the foremast—Flag of foreign nation vessel is going to. If going to own national port she carries flag of nation she is leaving if that nation happens to be foreign.
On the mainmast—The house flag, always.
On the aftermast (if she has one)—Flag bearing vessel's name.
On the mizzen—Nothing.
On the staff at the stern—The national ensign of the nation to which the vessel belongs.—New York Tribune.
Man and His Life.
Most men employ the first part of life to make the other part miserable.—La Bruyere.

DEMOCRATS ARE SURE OF SUCCESS

Wilson and Bryan Can See Nothing But Victory.
ELECTIONS ARE NO FORECAST

Administration Holds That Party Reverses in Various Cities Have No Bearing on National Issues—Borah of Idaho Not Disillusioned by Paper Nomination For President.
By ARTHUR W. DUNN.
Washington, April 15.—[Special.]—It is to be expected that Democratic officials will say there is no significance in the elections in municipalities when the party is defeated. It would be absurd for any one connected with the administration to acknowledge that the political tide is setting against the Democratic party, although the elections last fall and this spring may so indicate.
It is the political duty of every person connected with the administration to insist that everything is going along all right and that Democratic success next year is assured.
And the Democrats are playing the game. More than that, there has been a steady flow of optimism from the White House. One of the principal features of the weekly conference between the president and the newspaper correspondents is assurances by the president that the business outlook is brightening.
Not All False Confidence.
And it is a mistake to assume that this talk is "whistling to keep up their courage." There never was such an optimist as Secretary Bryan, and he has inspired his associates with the same feeling. The president also is one of the most hopeful and cheerful men. He never despairs of success either in politics or legislation.
It would be a bold member of the administration who would go to either Mr. Wilson or Mr. Bryan and tell him that the outlook for Democratic success next year has been somewhat clouded by recent events.
Borah of Idaho.
In every list of presidential possibilities for the Republican nomination the name of Borah of Idaho is included. While this may gratify the Idaho senator it does not in the least cause him palpitation of the heart. Borah has no illusions or delusions about the presidency. He does not take the stand that he would not accept the nomination, for it is known that almost any man would accept. But he never has entertained the idea that any party is going west of the Rocky mountains for a candidate or will select a candidate from a state having but four electoral votes. Consequently the Idaho senator can listen to the talk and read the advance notices without getting all stirred up over his presidential prospects.

Japs In Louisiana.

Japanese have been going into Louisiana lately and men from that state are trying to find a method to prevent them from colonizing in any great number. The south has generally been opposed to all classes of immigrants, particularly those which seek that region, and it is natural that they are much opposed to Japanese. A race war in Louisiana is likely to be more severe than in California for those southerners are apt to make it effective.
Bootleggers Make Converts.
There is no agency which makes as many converts in favor of prohibition and dry territory as the bootleggers, who try to smuggle liquors into prohibited territory. It is because of the unlawful traffic in liquor, the determination of liquor to avoid the laws of states and communities, that the nation wide prohibition movement is becoming so popular. The determination of liquor to find sale in communities which have declared against its sale makes converts for the prohibition cause among many who would not otherwise be interested.
Pinchot the Stormy Petrel.
Gifford Pinchot may be termed the stormy petrel, for he is always in the midst of things. He was a member of the Roosevelt "tennis cabinet"; he was one of the first men to buck against the Taft administration; he was one of the first men to fly across the ocean to meet T. R. when that distinguished traveler returned from Africa; he was one of the men who broke with Roosevelt a few months later; he was one of the first men to urge Roosevelt to become a candidate in 1912; one of the first to follow Roosevelt into the new party and two years later was ready to sacrifice himself in trying to sweep back the Taft force following in Pennsylvania. Those who know Pinchot are convinced that he rather liked the sensation of being expelled from Belgium by Germany.

Who Is Responsible?

Day after day there appears before the home of one of the attaches of the German embassy an Italian music vendor, and among other tunes he grinds out "Tipperary." Now, who is responsible for this joke? Similar attempts at humor have been tried before, but this may be real serious. It may afford the Germans another opportunity to kick our state department in the slats.

A TREE FALLACY.

The Idea That the Branches Rise as the Trunk Grows.
It is commonly believed that as a tree grows it elevates the lower branches and any other thing firmly attached to it. As a result, curious stories like the following circulate:
A Canadian farmer built a barn on willow posts set in the ground. The next spring happened to be wet, and he noticed that the horses had trouble in stepping up to the floor on entering. Finally it dawned upon him that the willow posts, which by this time had put out branches and leaves, were growing and elevating the whole barn.
The process continued until the floor was some nine or ten feet high.
Then he put in another floor at the ground level.
At the time the story was told this second floor was four feet from the ground, and the farmer was hoping for a wet season so that the elevation might continue until he could put in a third floor.
It is impossible to take this tale seriously, but many folks believe stories with as little foundation. Sometimes a hog tight fence is attached to green posts. In a few years the owner notices that good sized pigs can crawl underneath it, and often he concludes the green posts have grown and elevated the whole fence.
This elevation, however, happens also with seasoned posts and is due to another cause. Water expands when it freezes, and in the ground the expansion cannot be downward or sideways, so it must be upward. Consequently, every time the ground freezes the posts are pushed upward a fraction of an inch. When thawing occurs the weight of the fence is not sufficient to push them back.
Thus every freeze means a slight elevation, and in the course of three or four years the fence may no longer be hog tight.
In the same way wheat is lifted out of the ground in the early spring when the ground freezes for several nights in succession and thaws in the daytime.
Farmers and city dwellers alike believe that a growing tree elevates its lower branches; otherwise, they say, how is it that a three foot cherry tree in a few years has not a branch within four feet of the ground? If elevation really occurred, however, it is difficult to see how we could ever have a low headed tree, and that it actually does not occur is shown by careful observation spread over a number of years. The lower branches gradually die as they are shaded by the upper ones and in the course of time drop off. This natural pruning can be seen in all its stages at the same time in any fairly dense forest. Here it is easily seen that only branches in the light continue to thrive and live.
No branch is elevated to any extent after it is a year old.—Farm and Fireside.

MRS. L. P. WHITE PASSED TO REWARD

Was First White Woman in Brainerd, Living in First House in Brainerd 45 Years Ago

SHE LEAVES ONE DAUGHTER

Funeral will be Held Friday Afternoon From St. Paul's Episcopal Church in Brainerd

Calmly and peacefully as in a sleep, Mrs. L. P. White, passed to her reward Wednesday afternoon while visiting at the home of her sister, Mrs. A. A. White, of St. Paul.

Her life had been eventful and covered most interesting periods in the history of Brainerd. With her husband, L. P. White, she came to Brainerd in the first days of the town. Mr. White built the first house in 1870 and his wife was the first white woman in Brainerd. As agent of the Lake Superior & Puget Sound Land Company he was identified with the launching of Brainerd as a townsite and its subsequent development.

Mr. White died about 12 years ago. Mrs. White made her home in Brainerd and would frequently visit her sister in St. Paul and daughter, Mrs. H. H. Barber, at her home in Minneapolis. Mrs. White had two stepchildren, A. A. White of St. Paul and W. H. White, of Fargo, N. D. She was born in Rutland, Vermont and was about 75 years old.

Of a sweet disposition, making friends readily, she numbered her friends by the score. She was a devoted church attendant. The remains will be sent to Brainerd on the afternoon train Friday and the funeral services will be held shortly thereafter from St. Paul's Episcopal church, Rev. Caleb Benham officiating.

EXCELSIOR

For the Dance

The English No. 6, a new model of Sincerity Clothes, is the smartest thing for well-dressed dancers. Made in a variety of fabrics, with a one button front.

We will be glad to have you try one on before a mirror. Its looks will please you.

MISSING HEIRESS FOUND IN TOWN

Grace Fuda, of New Duluth, Had Been at Ransford and Then Employed at Depot Lunch Room

IS UNCONCERNED ABOUT IT

Father Came Down Post Haste From Duluth Last Night and Found His Daughter

Seated in the Dick Herbert lunch room a half block from the N. P. railway depot and peacefully eating dinner were I. Fuda, prominent merchant of New Duluth, and his runaway daughter, Grace, 16 year old beauty who ran away from home April 7 and whose whereabouts was a mystery until she was located in Brainerd.

Neither father nor daughter would vouchsafe a word as to why she had left home so unceremoniously. She wore some of her jewels, a ring resplendent with diamonds, a diamond brooch and other jewelry.

Grace said she worked two days at the Ransford hotel during the Minnesota State Sunday school convention. She left there Saturday night and went to the depot. The money she had was not sufficient to carry her home. Depot employes saw her plight and Dick Herbert was asked if he could give her employment. He telephoned about town and later, when Mrs. Herbert returned home, she suggested employing the girl at housework. She proved to be a bright, industrious girl.

Mr. Herbert read descriptions of the missing girl and telephoned to her father and the latter arrived in Brainerd last night and found her.

Seated in the lunch room this noon were father and daughter peacefully eating their dinner. Mr. Fuda mentioned how one report had been received that his daughter was on the range, another that she had been seen on State and VanBuren streets, Chicago, and a score of other towns and cities.

Both boarded the 2:30 train for Duluth this afternoon. Asked as to what reception she would receive at home, Mr. Fuda vouchsafed no reply. When told that a 16 year old boy of Brainerd returned home from such a trip, was kissed by his mother and father and then received a thrashing in the woods, Mr. Fuda would not say what would happen to little Grace.

During the dinner hour Grace smiled occasionally and her father begged to have as little mention as possible made of the occurrence. However, had it not been for newspaper publicity, Miss Grace would still be lost to view.

SEARCH FOR MISSING GIRL

Officers in All Surrounding Towns are Asked to Help Find Grace Fuda, of New Duluth

As the next step in the search for Miss Grace Fuda, of New Duluth, who disappeared mysteriously April 7, and who has not been or heard from since, Duluth's police have sent descriptive circulars throughout the Northwest. Officers in Northern Minnesota, Wisconsin, Michigan and along the Canadian border, in particular, will be warned to watch for the girl whose case has baffled the police for more than a week.

Grace is described as about 5 feet 2 inches tall, weighing 100 pounds, complexion and eyes dark, hair black. She has a small scar on each wrist, and is nervous, having a habit of biting her lips, or rubbing them with her handkerchief.

When she left home she wore a blue coat with red trimmings, and a black hat with red rose trimmings. She wore light dancing pumps instead of her usual heavier shoes.

TO TAX PARSONAGES

Put on Tax Rolls First Time Under Provisions of the New Law on Taxation in State

Congregations of the various churches of Brainerd this year will meet city taxation in a new form, as all parsonages, in accordance with a new tax law, are placed on the tax rolls. The churches, of course, are exempt as usual, but the parsonages will be assessed and taxed just like other residences.

COUNTY OPTION FORCES TO MEET

Gathering at Y. M. C. A. Next Wednesday Afternoon, April 21, at 1 O'clock

B. J. BROADY IS TO PRESIDE

Dry Victory in Brainerd, Also Success in Crosby, Leads Dry Men to Presage County Victory

County option forces will gather at the Y. M. C. A. next Wednesday afternoon April 21, at 1 o'clock. A large representation is expected from the range and country districts.

The officers of the county option organization are President B. J. Broady, secretary R. R. Livingston and treasurer John Vanderwerker. The organization is confident of success because of the dry victory in Brainerd and the handsome majority gained.

POTATO SPECIAL

Train of the Northern Pacific Railway Passed Through Brainerd and Working Westward

The "Potato Special," which is being operated on the Northern Pacific lines in co-operation with the State Potato Growers' association and the state university, has aroused great interest and enthusiasm among potato growers.

A weeks schedule was completed on the Duluth Short line, stops having been made at the leading potato-producing centers. The car passed through Brainerd and Staples, and will continue on the main line west as far as the Red River valley.

"This campaign has thus far done more to arouse the attention of farmers to the importance of standardizing the potato crop and of combating potato diseases than any movement that has heretofore been put on to my knowledge," said D. E. Willard, development agent of the Northern Pacific railway, who has been with the train a considerable part of the time.

"Many of the farmers have not realized the seriousness of the disease situation. It has also been evident that the farmers have not been realizing to the full what they should receive from their potato crop, owing to the lack of standardization of the product."

"Professors Brown and Tolass, who have been in charge of the car, have made a splendid campaign for better grading and guarding against the encroachment of potato diseases. This campaign I consider of the utmost importance to the potato industry in Minnesota."

FARMERS, ATTENTION

I have just returned from Iowa and have buyers for four or five GOOD FARMS. If you have a GOOD FARM well improved which you will sell at a reasonable price, drop me a line and I will try and call and see you. Address, Will S. Pitt, Crosby, Minn. dl-wl

CIGARETTE SHORTAGE GREATEST WAR HORROR

(By United Press)

St. Paul, Minn., April 15.—The greatest horror of the European war is the shortage of cigarettes, according to Armand H. Fernbach, here today. He has been on the firing line. Confidence oozes from him, as he tells that the allies will be in Berlin by December and that the French ambassador to Berlin before the war broke out will represent France at the peace conference when negotiations are finally declared. King Albert of Belgium, he declares, is more loved by Frenchmen than even President Poincaré or General Joffre. He says there is no suffering in the trenches, because this is French is sweet.

You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes the pain. It soothes the hot, tender, swollen feeling, and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25c. of any druggist and have it in the house—against colds, sore and swollen joints, lumbago, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief.—ts.

REPORTS MADE AT THE MEETING

Delinquent Members of the Chamber of Commerce are to be Asked to Remit Dues

TAX MATTERS CONSIDERED

Two New Members Taken into the Organization—New Chairmen are Appointed

The finance committee of the Chamber of Commerce will make a determined effort to collect delinquent dues. The house and social committee, in its report to the members at their regular meeting last night, said: "According to a report which the secretary has furnished this house and social committee, there appears a large number of members who are not only delinquent but to date have entirely ignored the monthly notices sent them regarding the prompt payment of dues. By referring to the by-laws it will be noted that provision is made for posting the names of members who fail to pay their monthly installment of dues or any other indebtedness 30 days after the same shall become due. We therefore recommend in all due fairness to those members who bear the burden of the organization that the names of all delinquent members be posted on the bulletin board as required and that the secretary be instructed to enforce this section of the by-laws."

It was recommended by the advisory board that the report be accepted, the recommendations be adopted and the secretary to place in the hands of the finance committee for collection the contracts of all delinquent members, after being posted on the bulletin board as required by the by-laws. The Chamber of Commerce so voted.

The agricultural committee reported having corresponded through the secretary with the general manager of the Agricultural and Industrial Exposition Co., Minneapolis. The organization proposes to present in Brainerd and Crow Wing county a traveling land show and industrial exposition. The report was accepted and the matter left to the judgment of the committee with instructions to confer with S. R. Adair in event the contract was entered into.

The exposition company has brought together and transports from city to city a collection of products from forests, fields and mines and carries a representative collection of all different kinds of breeds of horses, cattle, hogs, sheep and poultry.

The manufacturing committee has received a proposition made by Henry T. Hoag, of New York city, of raising an industrial fund. The committee report read: "We believe a start should be made in this direction especially with a view of locating here industrial institutions of one nature or another. We also realize that to try and raise an industrial fund ourselves would be an impossibility. Therefore, if the party in question as outlined in this letter is willing to come to Brainerd and undertake the campaign of raising such a fund, he should be extended hearty support. The secretary was ordered to correspond with him."

Mr. Hoag asks no salary, being satisfied with 5 per cent commission on the subscriptions he obtains and approved by the board of directors or industrial commission.

New members added to the Chamber of Commerce were Chester A. Darling and Clifford A. Russell.

The committee on committees reported these nominations for chairmen, to take the place of retiring chairmen who in most cases had suggested the changes made:

Manufacturing—Carl Adams. Legislation—G. S. Swanson. Wholesale and Jobsbers—J. C. Higbee.

Carl Wright was recommended as a member of the house and social committee. All nominations made were approved by the Chamber.

Secretary Hansing was delegated to attend the meeting of the Commercial & Civic Federation of Minneapolis at Minneapolis.

A. L. Hoffman spoke on the interpretation of the personal property tax laws and the secretary was instructed to gain information on that point while in St. Paul. The point arises: "Shall the \$100 exemption be deducted before or after the percentage is taken off?" Brainerd, it appears, lost \$150,000 to \$200,000 in valuation by the interpretation as made in this city.

P. B. Nettleton reported on the ore finds as made on the Holland lands bequeathed to the city by the late Judge G. W. Holland.

Good Deeds.

We must sow good deeds today to reap happiness tomorrow.—Chicago Tribune.

These are the Days for Spring Coats

And We are Showing the Styles You'll Want

It is a most beautiful line of coats we are showing. And, best of all, we have never had such a popular priced line. It is remarkable the styles we show you at from \$6.75 to \$15.00 with many at \$10.00 to \$12.50. Our courteous sales people are always willing to show you.

"MICHAEL'S"

Your Figure Improved

Royal Worcester Corsets will certainly improve your figure. If you are perfect naturally, or wish to appear naturally perfect, same is obtained in the comfortable, perfect-fitting and stylish Royal Worcester when properly chosen for the individual figure. Royal Worcester corsets impart style-lines with absolute comfort. Slight incurve at waist, slightly higher bust; graceful slender hips, and beautifully sculptured outlines. Models for every type of figure.

The Supreme Corset Test

One of the supreme tests of a corset is in the comfort of its wearer. And the second test is the mirror test—does the corset make the most of your figure's possibilities? The properly fitting Royal Worcester corset is comfortable. The proper Royal Worcester model will give you the right lines. The secret is all in selecting the right corset for your type, and then fitting the corset right, to your figure. That Selection and Fitting Service is free in our department.

MRS. L. P. WHITE PASSED TO REWARD

Was First White Woman in Brainerd,
Living in First House in Brain-
erd 45 Years Ago

SHE LEAVES ONE DAUGHTER

Funeral will be Held Friday After-
noon From St. Paul's Episcopal
Church in Brainerd

Calmly and peacefully as in a sleep, Mrs. L. P. White, passed to her reward Wednesday afternoon while visiting at the home of her sister, Mrs. A. A. White, of St. Paul.

Her life had been eventful and covered most interesting periods in the history of Brainerd. With her husband, L. P. White, she came to Brainerd in the first days of the town. Mr. White built the first house in 1870 and his wife was the first white woman in Brainerd. As agent of the Lake Superior & Puget Sound Land Company he was identified with the launching of Brainerd as a townsite and its subsequent development.

Mr. White died about 12 years ago. Mrs. White made her home in Brainerd and would frequently visit her sister in St. Paul and daughter, Mrs. H. H. Barber, at her home in Minneapolis. Mrs. White had two step-children, A. A. White of St. Paul and W. H. White, of Fargo, N. D. She was born in Rutland, Vermont and was about 75 years old.

Of a sweet disposition, making friends readily, she numbered her friends by the score. She was a devoted church attendant. The remains will be sent to Brainerd on the afternoon train Friday and the funeral services will be held shortly thereafter from St. Paul's Episcopal church, Rev. Caleb Benham officiating.

MISSING HEIRESS FOUND IN TOWN

Grace Fuda, of New Duluth, Had
Been at Ransford and Then Em-
ployed at Depot Lunch Room

IS UNCONCERNED ABOUT IT

Father Came Down Post Haste From
Duluth Last Night and Found
His Daughter

Seated in the Dick Herbert lunch room a half block from the N. P. railway depot and peacefully eating dinner were I. Fuda, prominent merchant of New Duluth, and his runaway daughter, Grace, 16 year old beauty who ran away from home April 7 and whose whereabouts was a mystery until she was located in Brainerd.

Neither father nor daughter would vouchsafe a word as to why she had left home so unceremoniously. She wore some of her jewels, a ring resplendent with diamonds, a diamond brooch and other jewelry.

Grace said she worked two days at the Ransford hotel during the Minnesota State Sunday school convention. She left there Saturday night and went to the depot. The money she had was not sufficient to carry her home. Depot employees saw her plight and Dick Herbert was asked if he could give her employment. He telephoned about town and later, when Mrs. Herbert returned home, she suggested employing the girl at housework. She proved to be a bright, industrious girl.

Mr. Herbert read descriptions of the missing girl and telephoned to her father and the latter arrived in Brainerd last night and found her.

Seated in the lunch room this noon were father and daughter peacefully eating their dinner. Mr. Fuda mentioned how one report had been received that his daughter was on the range, another that she had been seen on State and VanBuren streets, Chicago, and a score of other towns and cities.

Both boarded the 2:30 train for Duluth this afternoon. Asked as to what reception she would receive at home, Mr. Fuda vouchsafed no reply. When told that a 16 year old boy of Brainerd returned home from such a trip, was kissed by his mother and father and then received a thrashing in the woodshed, Mr. Fuda would not say what would happen to little Grace.

During the dinner hour Grace smiled occasionally and her father begged to have as little mention as possible made of the occurrence. However, had it not been for newspaper publicity, Miss Grace would still be lost to view.

SEARCH FOR MISSING GIRL

Officers in All Surrounding Towns are
Asked to Help Find Grace Fuda,
of New Duluth

As the next step in the search for Miss Grace Fuda, of New Duluth, who disappeared mysteriously April 7, and who has not been heard from since, Duluth's police have sent descriptive circulars throughout the Northwest.

Officers in Northern Minnesota, Wisconsin, Michigan and along the Canadian border, in particular, will be warned to watch for the girl whose case has baffled the police for more than a week.

Grace is described as about 5 feet 2 inches tall, weighing 100 pounds, complexion and eyes dark, hair black. She has a small scar on each wrist, and is nervous, having a habit of biting her lips, or rubbing them with her handkerchief.

When she left home she wore a blue coat with red trimmings, and a black hat with red rose trimmings. She wore light dancing pumps instead of her usual heavier shoes.

New Gun Just Introduced to the French Army

The French who have excelled in the smaller artillery during the whole period of the war, have just introduced this new gun, which it has been said by observers has had much effect on the Germans. It is of the mortar type and shoots at high angle to carry large shot a long distance over hills when the enemy cannot be seen.

ANOTHER LEAGUE MAKES ITS BOW

The American Association Will be Much Stronger Than Last Year is the Opinion

FIRST GLIMPSE OF PADDOCK

Instead of Long Distance Pool Room Recreation Will Greet the Eastern Race Fans

New York, April 15.—Another baseball league today made its bow for public favor. The American Association got under way today, on the heels of the National and American debuts of yesterday.

Although harassed by the Feds to some extent, the association was regarded as much stronger than last year. The strongest Fed rivalry was at Kansas City, although the Kawfeds lost money last year.

The Association's opening games today were: Louisville at Columbus; Indianapolis at Cleveland; Minneapolis at Milwaukee and St. Paul at Kansas City.

The Milwaukee brewers, 1914 champions, were again picked to be one, two, three this year. Mike Camillo's Millers were also much strengthened.

The situation at Indianapolis was improved over last year, when the Fed team there won the pennant and then was transferred to Newark. The Louisville Colonels were generally picked as the runners-up in the open-

ing race, with the Saints again picked to fight out the cellar championship with Kansas City or Cleveland.

Instead of long distance pool room recreation, eastern race fans will today get their first glimpse of paddock and betting ring when the northern racing season opens at the Havre De Grace track. An unusually stellar string of horses is entered for the big stakes, which are making the Havre De Grace track more popular annually. Horsemen of Baltimore and Washington are particularly strong for the Havre De Grace course and excursion trains from both cities are generally crowded.

RESULTS ON THE DIAMOND

FIRST PRACTICE OF THE YEAR

A Call to All Ball Players of the City for Saturday Afternoon at the Koering Grounds

OPPORTUNITY FOR EACH PLAYER

To Make the Team and Contracts will be Entered Into With Those Showing Best Form

At a recent meeting of the directors of the Brainerd Athletic association the secretary, C. E. Hansing, was authorized to act as manager of the team to serve in place of E. L. Orr, who requested that another member be appointed owing to plans which he had made for a summer vacation being altered which has necessitated his absence from the city for a considerable period the early part of the season. Secretary Hansing, who will guide the destinies of the team, when appointed secretary of the association at the meeting held for the election of officers, refused at that time to accept the managerial reins believing that some member with a better local acquaintance could more successfully handle the team. At the last meeting however, Mr. Hansing was again chosen and has now agreed to serve with the assistance of the other directors of the organization.

Manager Hansing's experience in baseball should qualify him to produce one of the best teams Brainerd has ever supported and while not having played in late years, his judgment of plays and players is based upon twelve years of playing experience with some of the best semi-pro and city league teams playing in the twin cities.

A call has been issued to all ball players in the city for next Saturday afternoon at the Koering ground when the first practice of the year will be held. Every player is to be given an opportunity to make the team and as soon as possible contracts will be entered into with the players showing the best form. A schedule is now being drawn up and to date several traveling aggregations have been signed which should afford a rare treat for the fans. It is expected games will be arranged with the leading teams of the state while a number of eastern teams have asked for dates among which are the All-American Girls Star team from Chicago said to be one of the fastest teams or the road with a long list of victories to their credit from last season. The Page Fence Giants of Chicago are scheduled to play in this section of the state and an effort will be made to arrange a series of games with them the early part of the season. The Phatos, All Nations and the Tigers, three teams with national reputations, have also written for dates which guarantees to Brainerdites one of the best seasons of baseball.

FRENCH SUMS UP
LOSS TO BRITISH.

London, April 15.—British losses in the three days' battle of Neuve Chapelle are recounted by Field Marshal Sir John French as follows:
Killed, 190 officers, 2,237 men.
Wounded, 359 officers, 8,174 other ranks.
Missing, 23 officers, 1,728 men.
"The enemy left several thousand dead on the field and we have positive information that upwards of 12,000 wounded were removed by train.
"Thirty officers and 1,657 of other ranks were captured."

Uzok Pass Is Pivot.

London, April 15.—The big battle for the moment is going on in the Carpathians and particularly in the neighborhood of Uzok pass, the Uhlans and Germans having brought the Russian advance almost to a stop.

BLOW TO WOMAN SUFFRAGE

Minnesota House Defeats Motion to Put Bill on Passage.

St. Paul, April 15.—Woman suffrage flared up in the house, but met defeat on a motion to suspend the rules and place Representative A. S. Larson's bill granting women the privilege of voting at presidential elections to a vote. The vote to suspend was 75 ayes and 49 noes, a two-thirds vote of the entire house being necessary. Friends of the bill felt they scored a partial victory in forcing practically the entire house to go on record regarding the question.

Alaska Submission Bill Signed.
Juneau, Alaska, April 15.—Governor J. F. A. Strong has signed the bill passed by the territorial legislature providing for submitting the question of prohibition throughout Alaska to the voters at the election Nov. 4, 1916. If prohibition is approved, it will become effective Jan. 1, 1918.

GOLD DUST

For every brightening and cleaning purpose in every home

Gold Dust is used at least three times a day in millions of homes everywhere.

Yet there are many thousands of housewives who think Gold Dust is only for one or two uses—

They would not use anything else but Gold Dust for washing dishes, for example—

Or for scrubbing floors and woodwork, washing windows, etc.

Gold Dust should be used for cleaning and brightening everything.

It is most economical; it is most satisfactory and it is most sanitary.

Cannot scratch or harm any surface, and it will dissolve and remove all dirt and grease.

"Let the GOLD DUST TWINS do your work"

The active principle of Gold Dust is so remarkably thorough that you rinse away the dirt and grease, leaving a newness, a cleanness and a brightness which delights.

Gold Dust forces its way into the corners and crevices where neither fingers nor washcloth can reach. It truly works for you. Any woman who has washed dishes with Gold Dust knows what that means.

Gold Dust is the leading washing and cleaning powder in the world; it is indispensable once you know it.

DANIEL S. GREGORY DEAD

Noted Educator and Writer Was Pastor at Morgan, Minn.

Newark, N. J., April 15.—Rev. Dr. Daniel Seelye Gregory, eighty-three years old, general secretary of the Bible League of North America, died at his home in East Orange.

Dr. Gregory was widely known as an educator and writer. He was a graduate of Princeton university and of Princeton Theological seminary. In 1878 he was elected president of Lake Forest college, Illinois, resigning eight years later to become pastor of a church at Morgan, Minn., where he remained until 1889. In 1890 he went to New York, where he became managing editor of the Standard Dictionary and was also editor of the Homiletic Review for several years.

PENCE MAY SUCCEED DAVIES

Secretaryship of Democratic Committee Is Considered.

Washington, April 15.—Thomas J. Pence, now in charge of the headquarters of the Democratic national committee, probably will be named to succeed Federal Trade Commissioner Davies as secretary of the committee.

Homer S. Cummings of Connecticut, vice chairman of the committee, discussed the political situation with President Wilson and later said he understood Mr. Pence was favored for the secretaryship.

Mr. Cummings refused to discuss reports that William F. McCombs might resign as chairman of the national committee, to be succeeded by himself.

CLYDE LINER IS STRANDED

Seminole From New York Is Aground on Sand Bank.

Santo Domingo, Dominican Republic, April 15.—The Clyde line steamship Seminole, from New York April 4 for West Indian ports, is aground on a sand bank near Saona, an island off the southeast extremity of Haiti. The vessel is in no danger.

The Norwegian steamer Sioslad has left Macoristo to aid the Seminole.

Can You Solve the Mystery of The Black Box?

It is one of those powerful, gripping stories that keep you in breathless suspense between installments. The thrills that the author, E. Phillips Oppenheim, has woven through the tale are guaranteed to satisfy every lover of action in fiction.

Read the story in this paper, then follow it in the movies.

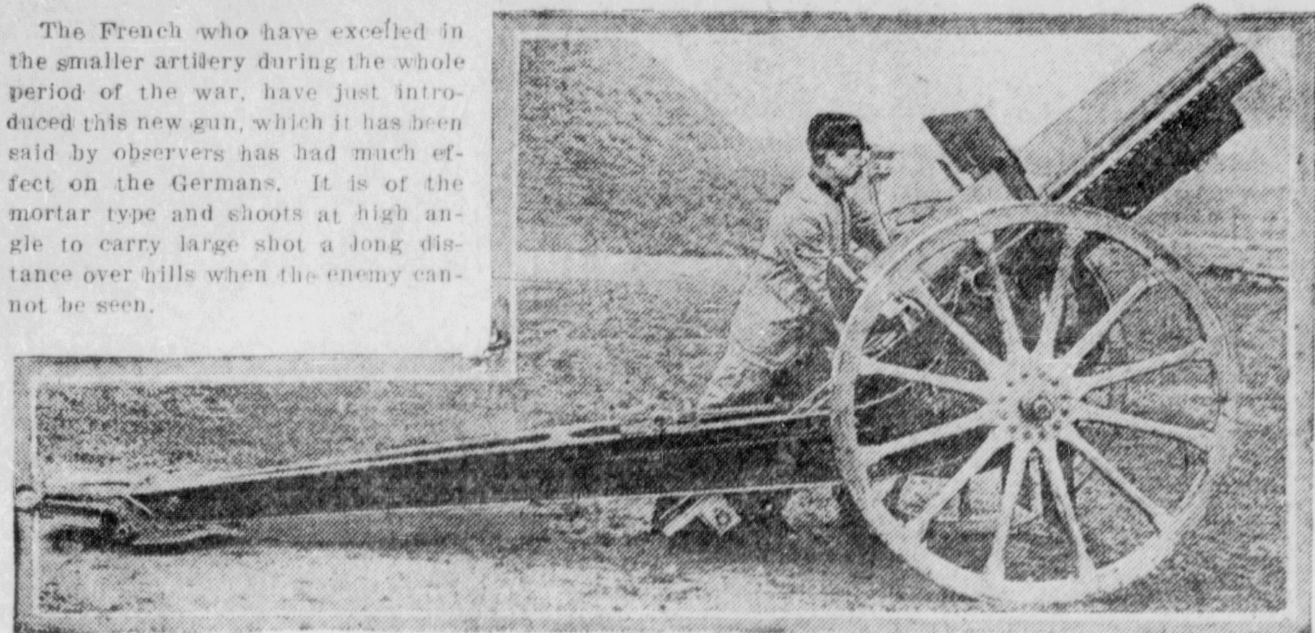

First Installment in a Few Days!

Will be shown at the
Grand Theatre, April 19 and 20

New Gun Just Introduced to the French Army

The French who have excelled in the smaller artillery during the whole period of the war, have just introduced this new gun, which it has been said by observers has had much effect on the Germans. It is of the mortar type and shoots at high angle to carry large shot a long distance over hills when the enemy cannot be seen.

ANOTHER LEAGUE MAKES ITS BOW

The American Association Will be Much Stronger Than Last Year is the Opinion

FIRST GLIMPSE OF PADDOCK

Instead of Long Distance Pool Room Recreation Will Greet the Eastern Race Fans

New York, April 15.—Another baseball league today made its 1915 bow for public favor. The American Association got under way today, on the heels of the National and American debuts of yesterday.

Although harassed by the Feds to some extent, the association was regarded as much stronger than last year. The strongest Fed rivalry was at Kansas City, although the Kawfeds lost money last year.

The Association's opening games today were: Louisville at Columbus; Indianapolis at Cleveland; Minneapolis at Milwaukee and St. Paul at Kansas City.

The Milwaukee brewers, 1914 champions, were again picked to be one, two, three this year. Mike Cantillon's Millers were also much strengthened.

The situation at Indianapolis was improved over last year, when the Fed team there won the pennant and then was transferred to Newark. The Louisville Colonels were generally picked as the runners-up in the open-

ing race, with the Saints again picked to fight out the cellar championship with Kansas City or Cleveland.

Instead of long distance pool room recreation, eastern race fans will today get their first glimpse of paddock and betting ring, when the northern spring racing season opens at the Havre De Grace track. An unusually stellar string of horses is entered for the big stakes, which are making the Havre De Grace track more popular annually. Horsemen folk of Baltimore and Washington are particularly strong for the Havre De Grace course and excursion trains from both cities are generally crowded.

RESULTS ON THE DIAMOND

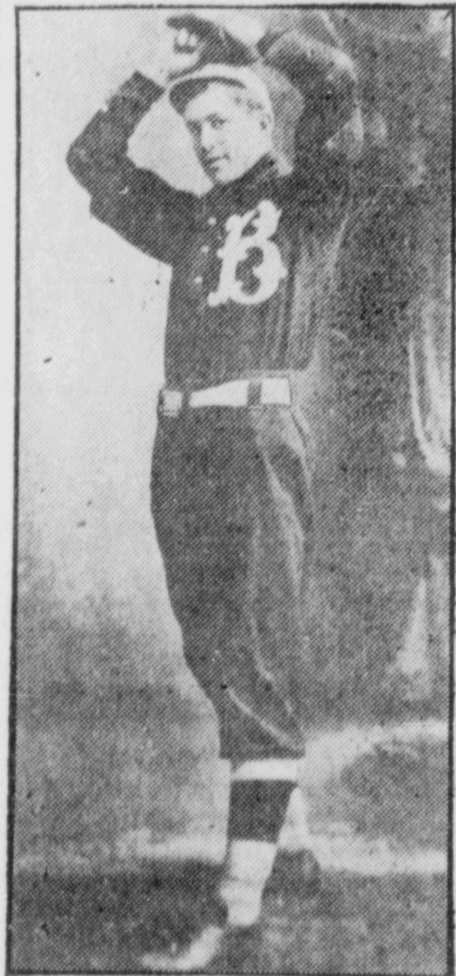

National League.
New York 16, Brooklyn 3.
Pittsburgh 9, Cincinnati 2.
Philadelphia 3, Boston 0.
Chicago 7, St. Louis 2.

American League.
Washington 7, New York 0.
Philadelphia 2, Boston 0.
Cleveland 5, Detroit 1.
Chicago 7, St. Louis 6.

Federal League.
Baltimore 5, Buffalo 1.
Brooklyn 8, Newark 7.
Kansas City 3, St. Louis 2.

Suggests His Use.

"Why does Ed call that old nag he takes his girl out riding behind Auto mobile?"
"I suppose he looks on the old nag as a sparking plug."—Baltimore American.

BUSH PITCHING

(By United Press)

Philadelphia, April 15, 3:19 P. M.—Bush is pitching for Philadelphia against Collins for Boston. Schang is Bush's battery mate.

Carrigan is catching for Boston. The Bean Eaters scored two runs in the second inning, while the Athletics were still without runs in the frame.

Bulletin, 4:09 P. M.—Bush was knocked out of the box in the fifth inning and Wyckoff went in.

Score 4:10 P. M.—
Boston 0 2 1 1
Philadelphia 0 0 0 0
